1. Which of the following augmented reality applications, if any, has your current workplace used for business purposes in the past year (to the best of your knowledge)? Select all that apply.

Wearable devices (e.g., Google Glass)	4%
Holographic meetings	1%
Remote business applications (e.g., remote diagnostics, remote healthcare, etc.)	16%
Transportation applications (e.g., vehicle HUD, etc.)	5%
Digital navigation tablets (e.g., for warehouse searching efficiency)	3%
Smartphone apps that overlay the camera view with additional information or graphics on top of the real scene	7%
My organization has not used augmented reality applications for business purposes in the past year, and does not plan to use them in the next year	41%
My organization has not used augmented reality applications for business purposes in the past year, but plans to do so within the next year	6%
None of these	21%
Unsure	14%
Other (please specify)	0%

2. What is the biggest barrier, if any, to adopting augmented reality at your organization?

Insufficient budget	12%
Insufficient staff resources	3%
Lack of skills/knowledge from existing staff	10%
Insufficient ROI	18%
Security concerns	14%
There are no barriers	11%
Unsure	26%
Other (please specify)	6%

3. To what extent do you agree or disagree that augmented reality could lead to the following workplace benefits?

	Completely agree	Somewhat agree	Somewhat disagree	Completely disagree	Don't know
New business models/ offerings	23%	51%	9%	3%	14%
Better marketing	14%	51%	12%	4%	19%
Better collaboration	13%	56%	13%	3%	15%
Increased efficiency	11%	55%	15%	5%	14%
Resource optimization	11%	45%	20%	4%	20%
Improved safety	7%	33%	23%	7%	30%
Financial savings	6%	40%	24%	8%	23%

4. Virtual graffiti programs enable individuals to post negative or inappropriate comments about places via augmented reality apps. Does your organization have a program in place to monitor negative comments on augmented reality programs (e.g., virtual graffiti)?

Yes	3%
No	65%
Unsure	32%

5. Does your organization have a way to detect any publicly posted social media posts, picture or videos that are geotagged to your business or tagged to your signage or advertisements and could show up in augmented reality applications that aggregate such information?

Yes	28%
No	36%
Unsure	36%

6. Does your organization have a policy that addresses staff use of augmented reality apps in the workplace?

Yes, we allow them with no restrictions	2%
Yes, and we allow them with limitations	9%
Yes, and we prohibit them	7%
No	63%
Unsure	20%

7. Do the benefits of augmented reality outweigh the risks?

Yes	18%
No	16%
Unsure	66%

8. Which industries do you think will benefit the most from augmented reality? Select all that apply.

Top three choices are bolded.

Financial/Banking	14%
Insurance	9%
Entertainment	66%
Travel	51%
Transportation	29%
Aerospace	35%
Retail	47%
Government/Military	39%
Technology	48%
Manufacturing	28%
Engineering	37%
Telecommunications	20%
Mining/Construction/Petroleum/Agriculture	18%
Utilities	12%
Legal	3%

Real Estate	40%
Healthcare/medical	51%
Marketing/media	53%
Education	53%
Other (please specify)	1%
Unsure	5%

9. How concerned should organizations be about the privacy risks of augmented reality?

Very concerned	40%
Somewhat concerned	45%
Not too concerned	6%
Not at all concerned	0%
Unsure	8%

10. How concerned should consumers be about the privacy risks of augmented reality?

Very concerned	41%
Somewhat concerned	47%
Not too concerned	5%
Not at all concerned	0%
Unsure	6%

11. Have you used augmented reality applications for personal use within the past year?

Yes	17%
No	83%

12. Have you used augmented reality applications for business use within the past year?

Yes	2%
No	98%

13. Do you think your IT department is aware of all of your organization's connected devices (e.g., connected thermostats, TVs, fire alarms, cars, etc.)?

Yes	39%
No	41%
Unsure	20%

14. Does your organization have a policy regarding the use of cloud-based applications without involving IT?

Yes, we allow it	15%
Yes, we prohibit it	58%
No, we do not have a policy regarding putting workloads into the cloud	12%
Unsure	15%

15. Does your organization have a policy regarding staff deploying apps to get their job done?

Yes, we allow it	13%
Yes, we prohibit it	58%
No, we do not have a policy about staff using apps	14%
Unsure	16%

16. What do you think is the likelihood of an organization being breached through an IoT device?

Low	10%
Medium	38%
High	43%
Unsure	9%

17. Which of the following, if any, do you see as significant security concerns for organizations, related to the IoT? Select all that apply.

Vulnerabilities in the device themselves	87%
Data leakage	81%
Access control	75%
Asset management	39%
IoT does not pose any significant security concerns	2%
Other (please specify)	2%

18. To what extent, if any, do you agree or disagree with the following statements about IoT device manufacturers?

	Completely agree	Somewhat agree	Somewhat disagree	Completely disagree
Device manufacturers are implementing sufficient security measures in IoT devices.	3%	18%	45%	35%
Manufacturers make consumers sufficiently aware of the information that IoT devices can collect.	1%	18%	45%	35%

19. Is your organization maximizing the potential of the data it collects through IoT devices/applications?

Yes	7%
No	48%
Unsure	45%

Demographics

20. In what industry do you work?

Financial/Banking	30%
Insurance	8%
Public accounting	3%
Transportation	2%
Aerospace	1%
Retail/Wholesale/Distribution	4%
Government/Military	10%
Technology Services/Consulting	18%
Manufacturing/Engineering	2%
Telecommunications/Communications	3%
Mining/Construction/Petroleum/Agriculture	2%
Utilities	2%
Legal/Law/Real Estate	0%

Healthcare/Medical	4%
Pharmaceutical	1%
Advertising/Marketing/Media	2%
Education/Student	2%
Other	7%

21. How many people are employed in your enterprise, including all branches, divisions and subsidiaries?

Fewer than 50	6%
50-149	4%
150-499	6%
500-1,499	9%
1,500-4,999	15%
5,000-9,999	8%
10,000-14,9	6%
15,000 or more	46%

22. Which of the following is closest to your job title?

Student	0%
External consultant	12%
Professor/teacher	1%
Practitioner	10%
Supervisor	4%
Manager	44%
Director	11%
Vice president	5%
CIO/CISO/CAE	8%
President/CEO	0%
Other	7%

23. Please select your gender.

Female	15%
Male	81%
Prefer not to answer	4%

24. Please select your age group.

Less than 20 years old	0%
20 to 25 years old	1%
26 to 30 years old	6%
31 to 35 years old	12%
36 to 40 years old	15%
41 to 45 years old	20%
46 to 50 years old	18%
51 to 55 years old	13%
56 to 60 years old	8%
61 to 65 years old	3%
66 to 70 years old	0%
71 years old or older	0%
Prefer not to answer	4%

About ISACA's 2016 IT Risk/Reward Barometer

The annual IT Risk/Reward Barometer is a global indicator of trust in information. Conducted by ISACA, a global association of more than 140,000 IT security, assurance, risk and governance professionals, the Barometer polls thousands of business and IT professionals and consumers worldwide to uncover attitudes and behaviors about essential technologies and information, and the trade-offs people make to balance risk and reward. The study is based on online polling of 6,591 ISACA members among 140 countries, including 363 from the UK, from 19-29 September 2016. Additional online surveys were fielded by M/A/R/C Research among 1,230 consumers in the US, 1,000 consumers in the UK, 1,000 consumers in Australia, 1,001 consumers in India and 1,000 consumers in Singapore. The US survey ran 6-8 August 2016, and the UK, Australia, India and Singapore surveys ran 12-23 August 2016. At a 95 percent confidence level, the margin of error for each individual country sample is +/- 3.1 percent.

To see the full results, visit www.isaca.org/risk-reward-barometer.

Note: Due to rounding to the nearest whole number, responses may not add up to 100%.
