Certified Information Systems Auditor® (CISA®) Fact Sheet

www.isaca.org/cisa

Since 1978, the [CISA](#) certification has been a globally accepted standard of achievement among information systems (IS) audit, control and security professionals. More than 129,000 professionals have earned the CISA designation since inception. CISA retention each year consistently remains more than 90 percent, including more than 94 percent for the most recent period.

The [CISA](#) certification is sought by those who audit, control, monitor and assess an enterprise's information technology and business systems. CISAs are recognized internationally as professionals with the assurance, knowledge, skills, experience and credibility to leverage standards, manage vulnerabilities, ensure compliance, offer solutions, institute controls and deliver value to the enterprise. Often, CISA is a mandatory qualification for employment as an information systems auditor.

CISA Certification Requirements

To earn the CISA certification, candidates are required to:

- Pass the CISA examination (offered worldwide as computer-based testing 1 May – 30 June, 1 August – 30 September and 1 November – 31 December, in 11 languages and at more than 800 locations)
- Submit evidence of a minimum of five years of professional IS auditing, control or security work experience
- Adhere to ISACA's [Code of Professional Ethics](#)
- Adhere to the [Information Systems Auditing Standards](#) as adopted by ISACA
- Agree to comply with the [CISA Continuing Education Policy](#)
