

CRISC Non-practicing Status Policy

The CRISC non-practicing status was established to accommodate CRISCs who are unable to work in the risk management and information systems control profession due to hardship (i.e. short or long-term unemployment, disability, prolonged illness) or a change in profession. A CRISC granted this status would be required to pay the annual maintenance fee, but would not be required to obtain continuing education hours. The non-practicing status begins January 1 of the first year in which CPE hours are not reported. A CRISC may remain in non-practicing status as long as he/she continues to meet the requirements for non-practicing. CRISCs in non-practicing status cannot use the “CRISC” or “CRISC (Non-practicing)” on business cards. Once the CRISC returns to the profession, they must return to active status.

How to apply for CRISC non-practicing status

A CRISC must apply for CRISC non-practicing status in the year they have left the workforce or profession. The non-practicing status would begin on 1 January of that year. To apply, a CRISC must submit an *Application for CRISC Non-practicing Status* to ISACA Certification. Applications must be submitted along with the CRISC invoice and payment no later than 15 January of the following year.

How to return to CRISC active status

A non-practicing CRISC returning to CRISC active status within two calendar years from the year in which CRISC non-practicing status is granted would do so by:

- submitting an *Application for CRISC Active Status* to ISACA Certification Department
- earning a minimum of 20 CPE hours during the year applying for active status
- submitting documentation supporting the 20 CPE hours

A non-practicing CRISC returning to CRISC active status after more than two calendar years from the year in which the CRISC non-practicing status is granted would do so by:

- submitting an *Application for CRISC Active Status* to ISACA Certification Department
- earning a minimum of 120 CPE hours within a three-year time period
- submitting supporting documentation for the 120 CPE hours
- gaining one year of work experience in the field of risk management and/or information systems control and submitting a *Verification of Work Experience Form* signed by a manager/supervisor

The CRISC will remain a non-practicing CRISC until the 120 CPE hours and one year of work experience are earned. Once approved, a CRISC will be notified in writing that active status has been granted. A new three-year certification period will begin 1 January of the year in which active CRISC status is granted.

An individual cannot re-apply for CRISC non-practicing status for a period of three years following a return to active status.
