

2017 Computer-Based Testing (CBT) Sites

Please note that this list is subject to change as ISACA and its testing vendor continue to identify and develop additional testing sites to further increase the network available to candidates. This list will continue to evolve up to and beyond the May/June 2017 testing window. Candidates will be able to view the exact location of testing sites while scheduling their testing appointment. Scheduling will open in February 2017 at which time all registered candidates will be notified via email that they can now schedule their exam.
