2.1 - Before You Register

ISACA certification exams are computer-based and administered at authorized PSI testing centers globally. Exam registration is continuous, meaning, candidates can register any time, no restrictions. Candidates can schedule a testing appointment as early as 48 hours after payment of exam registration fees.

Upon registration, exam candidates have a twelve (12) month eligibility period to take their exam. This means that from the date you register, you have 12 months (365 days) to take your exam. It is important to note that the exam registration fee must be paid in full before an exam candidate can schedule and take an exam.

Please be aware that the exam eligibility and registration fees will be forfeited in the event the candidate does not take the exam during the 12-month eligibility period, if the testing appointment is missed or if the candidate is more than 15 minutes late for a testing appointment.

2.2 - Registering for the Exam

Exam registration must be completed online by following the steps below:

3.1 - Getting Ready for the Exam

Exam Preparation

ISACA offers a variety of exam preparation resources including group training, self-paced training and study resources in various languages to help you prepare for your certification exam.

Exam Questions

Exam questions are developed with the intent of measuring and testing practical knowledge and the application of general concepts and standards. All questions are designed with one best answer.

- Every question has a stem (question) and four options (answer choices).
- Choose the correct or best answer from the options.
- The stem may be in the form of a question or incomplete statement.

In some instances, a scenario may also be included. These questions normally include a description of a situation and require you to answer two or more questions based on the information provided.

To learn more about the types of exam questions and how they are developed, go to Item Writing Guide.

Exam Tips

- Read each question carefully. An exam question may require you to choose the appropriate answer based on a qualifier, such as MOST likely or BEST.
- Read the question carefully, eliminate known incorrect answers and then make the best choice possible.
- A tutorial of the exam taking experience will be provided after logging onto the testing station and prior to the start of the exam. Pay close attention to the tutorial so as not to miss important information.
- All questions should be answered.
- There are no penalties for incorrect answers. Grades are based solely on the total number of questions answered correctly, so do not leave any questions blank.
- Budget your time. The exam is four hours in length. Pace yourself to complete the entire exam.
Before You Arrive at the Exam

Make sure you are prepared before the day of the exam by doing the following:

- Locate the test center address and confirm the start time.
- Map out your route to the testing center.
- Plan to arrive at least 15 minutes prior to the exam start time.
- Plan to store your personal belongings.

*See the Exam Day Rules for more information.

Identification Requirements

To enter the testing center, you must present an acceptable form of identification (ID). An acceptable form of ID must be a current and original government-issued ID that contains:

- Candidate’s name (as it appears on the Notification to Schedule email from ISACA)
- Candidate’s signature
- Candidate’s photograph

All information must be demonstrated by a single form of ID (cannot be a copy or handwritten).

Any candidate who does not provide an acceptable form of ID will not be allowed to sit for the exam and will forfeit his/her registration fee.

Acceptable Forms of Identification

Acceptable forms of identification include:

- Driver’s license
- State identity card (non-driver's license)
- Passport
- Passport card
- Military ID
- Green card
- Alien registration
- Permanent resident card
- National identification card

The testing center reserves the right to ask for additional forms of identification for verification purposes. If there is any doubt surrounding your identity, you will be turned away from the test and ISACA will be notified. This will be considered a no-show and you forfeit your exam fees. To take the test in the future, you will be required to re-register and pay the exam fee again.
3.2 - Exam Day Rules

The exam rules provide guidelines of what’s acceptable during the exam. The exam rules apply to tests administered at the PSI Test Centers and PSI Testing Kiosk locations.

4.1 - Exam Scoring

Receiving Your Score

You will be able to view your preliminary exam results on screen immediately following the completion of your exam. Your official score will be emailed and available online within 10 working days. If you are successful you will receive details on how to apply for certification.

1. Email notification: sent to the email address listed on your profile.
2. Online results: available on MyISACA > MyCertifications page of the ISACA website.
3. Exam scores won’t be provided by telephone or fax.
4. Question-level results cannot be provided.

Scoring Criteria

Candidate scores are reported as a scaled score. A scaled score is a conversion of a candidate’s raw score on an exam to a common scale. The purpose of a scaled score is to ensure that a standard way of reporting outcomes is used across disparate versions of the exam so that different versions are comparable and fair. ISACA uses and reports scores on a common scale from 200 to 800. You must receive a score of **450 or higher to pass** the exam which represents the minimum standard of knowledge.

- Exam outcome is based on total score only. Sub-domain scores are reported only to provide a relative performance in each area. Dividing the reported scores by the number of domains for an average does not accurately reflect the total score. It is possible to achieve low scores in multiple domains and still pass and high scores in certain sub-domains but still fail.
- A score of 800 represents a perfect score with all questions answered correctly.
- A score of 200 represents the lowest score possible and signifies only a small number of questions were answered correctly.
- A candidate receiving a passing score can then apply for certification if all other requirements are met (see section [How to become Certified](#) for more details).

Requests for Rescoring

While we are confident in the integrity and validity of our scoring procedures, you may request a rescoring if you do not pass the exam. Rescoring is performed by PSI.

You must submit a rescoring request in writing through our [support page](#) within 30 days following the release of the exam results.

- Requests for a rescoring after 30 days will not be processed.
- All requests must include a candidate’s name, ISACA identification number and mailing address.
- A fee of US $75 must accompany each request.
4.2 - Retake Policy

To protect the integrity of ISACA’s certification exams, ISACA has implemented the following retake policy:

1. Individuals have 4 attempts within a rolling twelve-month period to pass the exam. Those that do not pass on their first attempt are allowed to retake the exam a total of 3 more times within 12 months from the date of the first attempt.

To illustrate:

After taking and not passing the exam (attempt 1):

- Retake 1 (attempt 2): Customers must wait 30 days from the date of the first attempt
- Retake 2 (attempt 3): Customers must wait 90 days after the date of the second attempt
- Retake 3 (attempt 4): Customers must wait 90 days after the date of the third attempt

2. Individuals who pass the exam are restricted from taking the same exam within the application time period of 5 years.

3. Certification holders are restricted from taking the same certification exam while they are certified.

4.3 - Post Exam Feedback

You will have the opportunity to provide feedback after completing the exam via a post-exam survey. Your feedback is used to improve the testing experience and the quality of the exam questions.
