Where smart business meets smart IT.
One IT conference.
A wealth of business insights.

This June, INSIGHTS 2013 puts you in smart company with unprecedented access to CEOs, CIOs and other business leaders from around the world. Gain vital insights through spotlights and networking sessions with industry leaders and be part of history in the making with the definitive global IT conference, INSIGHTS 2013.

What makes INSIGHTS 2013 the definitive IT conference?

Inspiration
Preview tomorrow’s headlines, trends and how to build a smarter future with keynote speaker, renowned trend watcher and founder of the leading trend and research company Pocket Marketing/nxt, Dr. Herman Konings.

Closing keynote Egidio Zarrella will share his insights into tomorrow’s headlines and future technology trends in global business.

Innovation
INSIGHTS 2013’s unique format revolutionises the conference experience. From the executive panels, interview sessions and talk-show host format, to the insightful forums designed to address pressing business issues in a more intimate environment, you will gain insights from industry leaders who will facilitate and generate thought-provoking discussions.

Information
This shouldn’t come as a surprise, why else would you go to a conference? INSIGHTS 2013 sets itself apart from other industry events with an exciting line up of topics and high caliber of speakers, representing industry-leading organisations such as: CA Technologies, Cloud Security Alliance, Deutsche Post/DHL, EDPS, Elsevier, ENISA, IBM, INTUG, KPMG, Lloyd’s of London, Microsoft, News International Corp., Pfizer, TurkCell, Walmart and SWIFT.
Herman Konings’ presentation focuses on the century of the entangled consumer. Included in his keynote presentation are: which global trends influence the consu-human, different trends in different generations, trends in the consumer psychology, trends in business-to-business marketing, and many other national and international trends that are sure to be of value to you and your business.

Herman Konings has a PhD degree in theoretical (and consumer) psychology (cum laude) and is founder of Belgian trend and future research agency Pocket Marketing/nXt. As a renowned Belgian and European trendwatcher Herman is sought after as a speaker by companies and organisations throughout Europe. In addition, his insights have been featured in European media since 1999.

“Pocket Marketing” is a consulting and research agency on consumer psychology. Dr. Konings started focusing on society trends and began delivering presentations and seminars. After a couple of years he created ‘nXt’ a think tank and ‘guess imitating’ house for trends and forecasting. Konings is also co-founder of ‘Opus X’, a think tank that focuses on future trends. Next to his own research and work, Herman Konings is a highly sought-after expert for many domestic and foreign research agencies on trends and socio-cultural change.
Keeping an Eye on Tomorrow

Wednesday, 12 June 2013  |  11:00am – 12:30pm

Closing keynote Egidio Zarrella, CISA, will share his INSIGHTS into tomorrow’s headlines and future technology trends in global business, including:

- Mobilising Innovation—The changing landscape of disruptive technologies
- The rise of Asia as a payments and technology superpower
- The Changing Face of Commerce—what is going on in the market?

Edge Zarrella is a Senior Advisory Partner within KPMG’s China practice. He brings a career spanning more than 20 years in advisory. His specialisations include Business and IT strategy, Business and Finance Transformation, outsourcing and offshoring.

Edge had led many global and regional projects assisting clients in transforming their business and operations. He is a trusted advisor to senior executives and boards on the strategic use and development of information technologies. His specialisations include Business and IT strategy and his key clients have included companies in Australia, Asia-Pacific and North America. Edge also has significant Asia Pacific experience in the countries such as Singapore, Malaysia, Japan, Thailand, Philippines and Hong Kong/China. Edge is committed to proactive thought leadership and is the trusted advisor of many regional and global companies.
General Sessions

**Leading Business Transformation through Successful Partnerships with the CEO, Board of Directors and Key Stakeholders**

Monday, 10 June 2013 | 4:30pm – 5:30pm

In this session, participants will learn to:
- Develop and implement strategic IT plans aligned with business unit goals and objectives
- Define business units’ plan for IT strategy
- Create a competitive advantage for the business through the IT organisation

**EXPERT PANELISTS:**
- **David Foote,** CEO, Foote Partners LLC
- **Carlo Selwat,** PMP, Senior Vice President Infrastructure & Support, Schenker AG
- **Amar Singh,** CRISC, CISO, News International Corporation
- **Lieve Mostrey,** Executive Director and Chief Technology Services Officer, Euroclear SA/NV
- **Andreas Wuchner,** CISA, CIO Security Technologies, UBS

**MODERATOR:**
- **Tony Hayes,** CGEIT, Deputy Director General of the Department of Communities, Queensland Government, Australia

**Anticipating Business Trends: What do CIOs and IT Leadership Expect from the Business for the next 5 years?**

Tuesday, 11 June 2013 | 9:00am – 10:15am

Attend this session to hear more on:
- Technologies businesses will be adopting
- Cultural and organisational change anticipation
- How the IT organisation will need to change in anticipation of business and technology trends

**EXPERT PANELISTS:**
- **Robert Clyde,** CISM, CEO, Adaptive Computing
- **Dr. Giles Hogben,** EMEA Research Director, Cloud Security Alliance
- **Ilker Kuruöz,** CIO, Turkcell
- **Danielle Jacobs,** Director, Chairman, INTUG/BELTUG

**MODERATOR:**
- **Robert E. Stroud,** CGEIT, CRISC, Vice President, Innovation and Strategy, CA Technologies
What’s Around the Corner?
INSIGHTS from Industry Experts for 2013

Wednesday, 12 June 2013 | 9:00am – 10:30am

This engaging and realistic luncheon discussion from top experts on cyber space includes impact of cyber attacks, speed of attacks, risk management, disclosure obligations and other current issues/trends.

EXPERT PANELISTS:
Bhavesh Bhagat, CISM, CGEIT, Chairman, EnCrisp LLC
David Foote, CEO, Foote Partners LLC
Peter Vander Auwera, Innovation Leader, SWIFT Innotribe

MODERATOR:
Egidio Zarrella, CISA, Senior Clients and Innovation Partner, KPMG China
Insightful Sessions

Discussion leaders will generate dialogue and debate around hot issues that impact the integration of technology and business. These sessions are designed to be thought-provoking and interactive. Audience participation is encouraged. To ensure effectiveness, space is limited.

Emerging Business Privacy and Data Protection Concerns

Monday, 10 June 2013 | 11:15am – 12:45pm

Panelists and attendees will discuss:
- Legislation and Legal Consequences
- Business Ethics and Privacy Considerations
- Earning Customer Trust

EXPERT PANELISTS:
Johan Vandendriessche, Lawyer, Adv, Johan Vandendriessche BVBA
Per Johansson, Legal Officer, European Data Protection Supervisor

MODERATOR:
Yves Le Roux, CISM, Technology Strategist, CA Technologies

Big Data — Big Pain or Big Opportunity?

Monday, 10 June 2013 | 11:15am – 12:45pm

Panelists in this forum will cover the following topics:
- Analysing Big Data to pave the way for innovation
- Value proposition for using Big Data
- Administrative, operational and trust challenges

EXPERT PANELISTS:
Neil Jarvis, Global Head of Information Security (EMEA), DHL
Juan Luis Carselle, CISA, CGEIT, CRISC, Assistant Director – IT Strategic Planning & Information Security, Wal-Mart Mexico and Central America
Gary Cheetham, CISO, NFU Mutual Insurance Group

MODERATOR:
Phil Lageschulte, CGEIT, Partner, KPMG
Information Security—Keeping up with the Business

Monday, 10 June 2013 | 11:15am – 12:45pm

This panel will illustrate new developments across a number of security topics, including:

- Security support for rapidly changing needs of the business
- Security engagement in new business opportunities in Social Media, Cloud and Big Data
- Security partnership and skills development to be an effective business partner

EXPERT PANELISTS:

Arnie Bates, CISA, CISM, CGEIT, CRISC, CISO, Scotia Gas Networks
Marcus Alldrick, Senior Manager, Information Risk and Protection, Lloyds of London

MODERATOR:

Dr. Christos Dimitriadis, CISA, CISM, CRISC, Head of Information Security, Intralot S.A.

Leading the Organisation to Innovation

Monday, 10 June 2013 | 2:45pm – 4:00pm

Discussion topics to include:

- Approaches to the use of the “Internet of everything” with social media, gamification
- Decision making with innovative use of technology
- Quick-adoption business structures in tandem with change management

EXPERT PANELISTS:

Jamie Pasfield, CGEIT, Senior Manager, Global IT Strategy & Governance, Pfizer
Robert Clyde, CISM, CEO, Adaptive Computing

MODERATOR:

Dr. Lucie Langer, AIT Austrian Institute of Technology, GmbH
Navigating the Slippery Slope of Cloud Computing Assurance

Monday, 10 June 2013  |  2:45pm – 4:00pm

This panel session will include the following key topics:

• Customer right to audit cloud providers
• Understand whether 3rd party reports on controls such as SOC2 provide adequate assurance
• Discuss whether strong contractual language and a detailed SLA will provide adequate assurance
• What happens when organisations discover after the fact that regulated data (cardholder data, PII, PHI, etc.) has gone to the cloud?
• Strategies for assurance when multiple providers are in concurrent use (with porous delineations between them)
• Strategies for monitoring control implementation status at a cloud provider – what works? What doesn’t? How much reporting is sufficient?
• Utility of cloud guidance and frameworks (ENISA, PCI Cloud Guidance, CSA CSM, etc.)

EXPERT PANELIST:
Bhavesh Bhagat, CISM, CGEIT, Chairman, EnCrisp, LLC

MODERATOR:
Jo Stewart-Rattray, CISA, CISM, CGEIT, CRISC, Director of Information Security, BRM Holdich

Managing IT Risk when Everything is Changing

Monday, 10 June 2013  |  2:45pm – 4:00pm

Attendees of this session can expect to discuss:

• Changes in approaches to risk management when you don’t have time to carefully plan as would be ideal
• Approaches to change in perspective on approaching risk
• Case studies for risk management success

EXPERT PANELISTS:
Steven Babb, CGEIT, CRISC, Head of Governance, Risk and Assurance, Betfair
Neil Jarvis, Global Head of Information Security (EMEA), DHL

MODERATOR:
Urs Fischer, CISA, CRISC, CPA, Owner, Fischer IT GRC Beratung & Schulung
Megatrend Session
Monday, 10 June 2013 | 2:45pm – 4:00pm

- Content is currently being developed based on timely trends in the industry. Subject matter will be finalised as soon as possible. Once finalised, content will be confirmed via isaca.org.

The Future of Cloud Computing
Tuesday, 11 June 2013 | 11:00am – 12:30pm

Participants in this session can expect to learn about:
- How strategies have changed
- How the Cloud has performed – and how it should perform
- Who’s leading – the supplier or business?

EXPERT PANELISTS:
Dr. Paolo Balboni, Scientific Director, European Privacy Association
Founding Partner, ICT Legal Consulting
Nick Coleman, Global Head, Cybersecurity Intelligence, IBM
Dr. Giles Hogben, EMEA Research Director, Cloud Security Alliance
Danielle Jacobs, Director, Chairman, INTUG/BELTUG
Robert E. Stroud, CGEIT, CRISC, Vice President, Innovation and Strategy, CA Technologies
INSIGHTS 2012 Conference Co-Chair

MODERATOR:
Ramsés Gallego, CISM, CGEIT, Security Strategist and Evangelist, Dell Software

The Future of IT Auditing
Tuesday, 11 June 2013 | 11:00am – 12:30pm

- Discussion to provide insights on profession future and evolution

EXPERT PANELISTS:
Sally Chan, CGEIT, VP Internal Audit, Alberta Investment Management Corp.
Leonard McKeown, CISA, Manager, Internal Audit, Western Union

MODERATOR:
Gregory Grocholski, CISA, Chief Audit Executive, Auditor, Dow Chemical Company
ISACA International President 2012-2013
Cybersecurity Strategy

Tuesday, 11 June 2013  |  11:00am – 12:30pm

Panelists will share their insights on:
- Advanced persistent threats
- Information threats

EXPERT PANELISTS:

Dr. Vangelis Ouzounis, *Head of Unit – Secure Infrastructure and Services*, European Network and Information Security Agency (ENISA)

Adrian Hehl, *Manager, Counter Cybercrime*, Deutsche Post AG

MODERATOR:

Christos Dimitriadis, CISA, CISM, CRISC, *Head of Information Security*, Intralot S.A.

New Retail Technologies

Tuesday, 11 June 2013  |  2:15pm – 3:45pm

This panel on emerging retail technologies will cover the following advances:
- Google Lenses
- eWallet
- NFC, Smart Mirror and customer-driven marketing

EXPERT PANELISTS:

Dr. Paolo Balboni, *Scientific Director*, European Privacy Association

*Founding Partner*, ICT Legal Consulting

Juan Luis Carselle, CISA, CGEIT, CRISC, *Assistant Director - IT Strategic Planning & Information Security*, Wal-Mart Mexico and Central America

Peter Vander Auwera, *Innovation Leader*, SWIFT Innotribe

MODERATOR:

Ramsés Gallego, CISM, CGEIT, *Security Strategist and Evangelist*, Dell Software
**Smart IT in Government**

**Tuesday, 11 June 2013 | 2:15pm – 3:45pm**

High profile panelists share their candid thoughts on:

- eGovernment innovation
- Enhanced services and cost reduction
- Economic stimulation and work force creation

**EXPERT PANELISTS:**

**Tony Hayes, CGEIT,** *Deputy Director-General,* Queensland Government, Australia

**Edward Pelcher, CISA, CGEIT, CRISC,** *Business Executive: IT Alignment and Business Process Re-engineering,* Auditor-General of South Africa

**The Honorable Theresa Grafenstine, CISA, CGEIT, CRISC,** *Inspector General,* U.S. House of Representatives

**MODERATOR:**

**Yves Le Roux, CISM,** *Technology Strategist,* CA Technologies

---

**Business Value Through Technology Innovation**

**Tuesday, 11 June 2013 | 2:15pm – 3:45pm**

Industry experts will enlighten participants on the following topics:

- New technologies in healthcare – IT help
- Electronic health records and clinical information systems
- Information governance and information exchanges

**EXPERT PANELISTS:**

**David Cass, CISM, CGEIT, CRISC, CISSP,** *Senior Vice President and CISO,* Elsevier

**Jamie Pasfield, CGEIT,** *Senior Manager, Global IT Strategy & Governance,* Pfizer

**Susan Holleran,** *Vice President, Audit and Risk Management,* Waters Corporation

**MODERATOR:**

**Ken Vander Wal, CISA,** *2011-2012 ISACA International President*
IF5: COBIT 5 Forum
Tuesday, 11 June 2013 | 2:15pm – 3:45pm
Get information from the experts on how COBIT 5 can benefit your enterprise.

EXPERT PANELISTS:
Waleed Khalid, CISA, Senior IT Auditor, Internal Audit EMEA Region, MetLife
Jo Stewart-Rattray, CISA, CISM, CGEIT, CRISC, Director of Information Security, BRM Holdich
Steven Babb, CGEIT, CRISC, Head of Governance, Risk and Assurance, Betfair

Impact of New Technologies on Operational Risk
Tuesday, 11 June 2013 | 4:15pm – 5:30pm
Learn how the following can pose threats to businesses in the years to come:
• Anti-money laundering and leveraging IVP for new transactions
• Impending risks with new services, payment types and web-based applications
• Use of AI (Artificial Intelligence)

EXPERT PANELISTS:
Allan Boardman, CISA, CISM, CGEIT, CRISC, CISSP, Information Risk Manager, Morgan Stanley
Steven Babb, CGEIT, CRISC, Head of Governance, Risk and Assurance, Betfair
Dr. Dieter Steinbauer, Senior Consultant, Professor, 4tunes_strategies, RWTH University Aachen

MODERATOR:
John Ho Chi, CISA, CISM, CRISC, Partner, Ernst & Young, LLP
Managing Critical Career Skills for the Next Generation

Tuesday, 11 June 2013  |  4:15pm – 5:30pm

Generational Gap, Career Path and Planning
• Changing demographics of the workforce and younger worker expectations
• Managing the transition in management from retiring workers to younger workers
• Critical skills shortage and continuing education and skills development

EXPERT PANELISTS:
Christos Dimitriadis, CISA, CISM, CRISC, Head of Information Security, Intralot S.A.
David Foote, CEO, Foote Partners LLC
Yves Le Roux, CISM, Technology Strategist, CA Technologies
Ivan Sanchez-Lopez, CISA, CISM, CISSP, Group Functions Security Analyst, Vodafone Group Services SmbH
Robert Newbould, CISA, RN Consulting

MODERATOR:
Robert E. Stroud, CGEIT, CRISC, Vice President, Innovation and Strategy, CA Technologies
INSIGHTS 2012 Conference Co-Chair

Forensic Fraud Detection

Tuesday, 11 June 2013  |  4:15pm – 5:30pm

Panelists in this session will share with attendees:
• Challenge of forensics in the cloud
• Collaboration between law enforcement and business
• International law and jurisdictions

EXPERT PANELISTS:
Peter Wood, CEO, First Base Technologies LLP
Adrian Hehl, Manager, Counter Cybercrime, Deutsche Post AG

MODERATOR:
Ramsés Gallego, CISM, CGEIT, Security Strategist and Evangelist, Dell Software
Panelists and Moderators

**Marcus Alldrick**

*Senior Manager, Information Risk and Protection*

Lloyds of London

In his role at Lloyd’s, Alldrick is responsible for ensuring that risks to information are understood and adequately mitigated in a cost-effective manner throughout the corporation, both in the UK and in its overseas locations. His role extends to providing assurance to this effect to Executive, Senior and Line Management. Alldrick also has corporate responsibility for Data Protection and Privacy and provides thought leadership on emerging information related risks pertinent to the Lloyd’s market.

Alldrick has worked in IT for more than 34 years, specialising in information risk, protection, security and continuity for the latter 21 years. Prior to joining Lloyd’s, Alldrick was a Principal Advisor for KPMG, working in IT Advisory and specializing in information security strategy definition and implementation. Before that he was Head of Information Security for Abbey National plc, a leading UK bank, a position he held for six years following seven years as Information Risk and Security Manager for Barclaycard, a leading card issuer and merchant acquirer and part of Barclays plc.

**Steven Babb, CGEIT, CRISC**

*Head of Governance, Risk and Assurance*

Betfair

As head of governance, risk and assurance at Betfair, one of the world’s largest international online sports betting providers, Babb manages a team covering Australia, Europe and the USA. He is chair of ISACA’s Framework Committee and the COBIT for Risk Task Force, and sits on the Knowledge Board. He is a past member of ISACA’s Risk IT and COBIT 5 Task Forces. Prior to his current role, Babb was Head of Information and Technology Risk at Betfair and Head of Technology Risk in the UK practice of KPMG’s risk consulting team. Babb has 17 years of consulting and assurance experience covering areas such as information systems governance, IT risks and controls, service management and, programme and project management, gained across the public and private sectors.
Dr. Paolo Balboni  
*Scientific Director, European Privacy Association*  
*Founding Partner, ICT Legal Consulting*

As a partner at ICT Legal Consulting, Balboni provides advice to multinational companies, especially concerning personal data protection, econtracts, ecommerce, emarketing, advertising, Cloud computing, Web 2.0 service providers' liability, Internet content providers' liability, e-signatures, digital retention of documents and intellectual property rights. He also advises celebrities on privacy and copyright matters.

With experience in IT, media and entertainment, eHealth, fashion and banking, Balboni is author of the book Trustmarks in E-commerce, and is a research associate for Tilburg University (The Netherlands). He co-chairs the Privacy Level Agreement (PLA) Working Group of Cloud Security Alliance and was the legal counsel for the projects of European Network and Information Security Agency (ENISA) on Cloud Computing Risk Assessment, Security and Resilience in Governmental Clouds, Procure Secure: A guide to monitoring of security service levels in cloud contracts, and Common Assurance Maturity Model – Beyond the Cloud (CAMM). Balboni is often involved in European Commission studies on new technologies and data protection, and participates on several speaking engagements at international conferences on these matters.

Bhavesh Bhagat, CISM, CGEIT  
*Chairman*  
EnCrisp, LLC  

Bhagat is co-founder of Confident Governance and is Chairman at EnCrisp LLC. Confident Governance is a GEW 50 Award-winning Social Cloud Governance company delivering the assurance of safe and sustainable governance and trust over the Cloud for enterprises of all sizes. EnCrisp is an INC 5000 privately-held global leader in enterprise solutions for governance, risk and compliance. As a successful serial entrepreneur who has navigated his startups to INC 500 level, Bhagat blends international experiences as an entrepreneur and in software innovation and growth marketing strategies and P&L management in bootstrapped environments as a financial executive. He brings strategic execution and insight as a seasoned technology executive, professional international speaker and published author.

Bhavesh is a globally recognized visionary on cybersecurity, risk management and governance subjects and their impact on business and social issues surrounding emerging technologies. Bhagat also founded non-profit Global GRC Exchange, which encourages research and idea sharing among practitioners around the world. He is a frequent speaker at industry-leading forums such as CSA, Sapphire, ISACA, The IIA, GRC and Financials international conferences. He served appointments as a member of the Board of Directors for the ISACA National Capital Area Chapter and the Board of Advisors to The Commonwealth of Virginia Joint Commission on Technology and Science. He is currently part of the Executive committee board of Loudoun SourceLink where his role is to provide high level guidance for Loudoun County entrepreneurs.
Allan Boardman, CISA, CISM, CGEIT, CRISC, CISSP
*Information Risk Manager*
Morgan Stanley

Allan Boardman is an Information Risk Manager at Morgan Stanley. He is a past President of the ISACA London Chapter and he has also served on ISACA's CISM Certification Committee, the Credentialing Board and the Leadership Development Committee. He currently chairs ISACA's Credentialing Board and is a member of its Strategic Advisory Council.

He began his career with Deloitte in Cape Town and has more than 30 years of experience in IT audit, risk, security and consultancy roles at companies such as JPMorgan Chase, Goldman Sachs, KPMG, PricewaterhouseCoopers, Marks and Spencer, and the London Stock Exchange. Boardman has served on the British Computer Society's Information Risk Management and Audit committee.

Juan Luis Carselle, CISA, CGEIT, CRISC
*Assistant Director – IT Strategic Planning & Information Security*
Wal-Mart Mexico and Central America
ISACA International Vice President

Carselle has more than 20 years of IT experience throughout Latin America in multiple areas, including systems development, project management, quality assurance, IT auditing and systems security. He is a member of ISACA's Credentialing Board, and has served as chair of ISACA's CISA Certification Committee and member of the CRISC Certification Committee, CISA Quality Assessment Team and CISA Spanish Translation Team.

David Cass, CISM, CGEIT, CRISC, CISSP
*Senior Vice President and CISO*
Elsevier

Cass is the Chief Information Security Officer for Elsevier. He leads an organization of experienced legal, risk and security professionals that provide data protection, privacy, security and risk management guidance on a global basis. Cass has extensive experience in IT security, risk assessment, risk management, business continuity and disaster recovery, developing security policies and procedures. He has played a key role in leading and building corporate risk and governance and information security organisations in the financial sector. As the Senior Director of Information Security Risk and Governance for Freddie Mac, he rebuilt the risk and governance function and developed a team to provide risk assessments, methodologies, tools, services and training to improve the maturity and capabilities of Freddie Mac's information security, risk and governance programs. Prior to that he was Vice President of Risk Management for JPMorgan Chase, and was responsible for providing an accurate assessment of the current risk management state, contributing to the future direction of risk management, continuity and disaster recovery capabilities for the organisation.
Sally Chan, CGEIT  
VP, Internal Audit  
Alberta Investment Management Corp.

Chan is VP of Internal Audit at AIMCo (Alberta Investment Management Corporation), a $70 Billion investment management company. Prior to assuming her current position, from 2006–2009, she was an independent consultant specialising in operational efficiency and effectiveness, technology risk management, audit and compliance services. From 2003–2006, Chan was the enterprise lead manager and IT subject matter advisor in the Financial Controls Office of RBC Financial Group’s Sarbanes-Oxley (SOX) initiative. She oversaw the policy, methodology, standards and the integration of automated controls with the business processes at the entity and activity levels. From 2000-2003, Sally was the Senior Manager of Technology, Internet and e-Business Risk at RBC’s Group Risk Management. Between 1995 and 2003, she was the Senior Audit Manager and leader for the IT audit of RBC’s Capital Markets and Corporate Banking systems globally.

Chan has a recognised track record in operations, technology consulting in the financial services, energy and educational sectors, in North America, China, Hong Kong and U.K. Her clients have included Hydro One, Manulife, John Hancock Investments and TD Financial Group. Chan is a regular contributor to current articles in IT risk and control, and co-author of several books. She holds a BA (Hons) from the University of Hong Kong, and an MA from the University of British Columbia, Canada.

Robert Clyde, CISM  
CEO  
Adaptive Computing

A recognised industry leader, Clyde has more than 30 years experience as an enterprise software executive with demonstrated leadership success at startup companies, small businesses, mid-sized businesses and large companies, including Adaptive Computing, Symantec, Axent Technologies and Raxco Software. An Internet security pioneer and innovator, he is credited with the creation of the first commercial intrusion detection system and led the business unit that developed and brought to market the first security compliance product. As Chief Technology Officer at Symantec, Clyde defined Symantec’s technology strategy and was a key part of the management team that drove the company to grow from slightly under $1B in revenue to over $5B in five years. He also serves as a member of the board of directors for Telligent and PasswordBank.
Nick Coleman  
*Global Head, Cybersecurity Intelligence*  
IBM

Nick Coleman is Global Head Cyber Security Intelligence Services at IBM and prior to this was Global Cloud Security Leader across IBM delivered cloud platforms. He has delivered and also advised on cybersecurity ranging on designing governance models through to policy and delivering security into business operations. Previously he was with the UK government where he led the review on whether UK Government Infrastructures and Information is adequately protected. His report ‘The Coleman Report’ was published by the Government Cabinet Office and placed in both Houses of Parliament.

Coleman has a business background prior to getting into the security arena over 10 years ago. He is currently an appointed advisor to the Executive Director of the EU Cyber Security Agency (ENISA). He serves on the IT Policy Committee of the IET, and also serves on the Advisory Board for Security at the BCS. He is a Fellow of the Institution of Engineering and Technology (IET) and a Fellow of the British Computer Society (BCS). In 2013 he joined the panel at the German Marshall Fund with the Estonian President and Swedish Foreign Minister to discuss cybersecurity.

Dr. Christos Dimitriadis, CISA, CISM, CRISC  
*Head of Information Security*  
Intralot S.A.

Dimitriadis is International Vice President of ISACA and chair of the COBIT Security Task Force. He also is Head of Information Security for INTRALOT GROUP, a multinational supplier of integrated gaming and transaction processing systems based in Greece, managing information security in more than 50 countries on six continents. Dimitriadis has served ISACA as chairman of the External Relations Committee and member of the Relations Board, Academic Relations Committee, ISACA Journal Editorial Committee and Business Model for Information Security Workgroup.

Dimitriadis has been working in the area of information security for 11 years and has authored 70 publications in the field. He has been providing information security services to the ITU, European Commission Directorate Generals, European Ministries and international organisations, as well as business consulting services to entrepreneurial companies.
Urs Fischer, CISA, CRISC, CPA  
*Owner*  
Fischer IT GRC Beratung & Schulung  

Fischer is owner of Fischer IT GRC Beratung & Schulung, chair of ISACA's CRISC Certification Committee and a member of the Credentialing Board. He was also a member of ISACA's Guidance and Practices Committee, is a developer of ISACA's Risk IT and COBIT frameworks, and has chaired ISACA's Audit Committee.  

Fischer is also an independent IT governance, risk and compliance consultant. Between 2003 and 2010, he was Vice President and Head of IT Governance and Risk Management for the Swiss Life Group. Previously, he was the Head of IT Audit for the SwissLife Audit Department based in Zurich, Switzerland. Since 1989, Fischer has worked in the IT governance, audit and security professions and has gained extensive IT governance, risk management and information systems security experience, especially in the finance and insurance area. In June 2010, Fischer received the John Lainhart IV Award as recognition for a major contribution to the development and enhancement of the body of knowledge in the field of IS audit, security and risk management. An active ISACA leader, Fischer was involved in the development of COBIT 5.

David Foote  
*CEO*  
Foote Partners LLC  

Foote is an IT industry research pioneer, innovator, and one of the most quoted industry authorities on global IT workforce trends and multiple facets of the human side of technology value creation. His two decades of groundbreaking research and analysis of IT-business cross-skilling and the integration of technology and business management, and his leadership in developing innovative skills demand and compensation benchmarking has won him a place on a short list of thought leaders in these areas. A keen predictive trends analyst for more than 20 years, he built his reputation at Gartner, META Group, and at several Silicon Valley technology companies prior to co-founding Foote Partners in 1997. There he leads a senior team of former McKinsey & Company, Gartner and Towers Watson analysts and consultants, and former HR, IT and business executives and managers, in publishing more than 100 quarterly-updated IT benchmark and market trends reports supported by continuous data collection involving 127,000 IT and IT-business hybrid professionals at 2,350 research partner companies. A popular featured opinion columnist, conference speaker, Web communicator, and regular contributor to countless online, print, radio, and television media sources, Foote's research-backed forecasts and analyses reach a weekly global audience of millions of business and technology professionals.
Ramsés Gallego, CISM, CGEIT, CCSK, CISSP, SSCP, Six Sigma Black Belt
Security Strategist and Evangelist
Dell Software

Ramsés Gallego is a security strategist and evangelist at Dell. He has more than 15 years of security experience, with expertise in the risk management and governance areas, and is an internationally recognised public speaker on topics including Cloud computing, risk management and access governance. He has served on ISACA’s Guidance and Practices Committee, and the CISM and CGEIT Certification Committees. He is an author of ISACA white papers on geolocation, virtualisation and sustainability, and is research director and strategic planner for the ISACA Barcelona (Spain) Chapter. He also served on the planning committee of the inaugural ISACA World Congress: INSIGHTS and chaired the planning committee for ISACA’s Information Security and Risk Management Conference in Europe.

The Honorable Theresa Grafenstine, CISA, CGEIT, CRISC
Inspector General
U.S. House of Representatives

Grafenstine is the fourth person and first woman to be appointed as the Inspector General of the House. She has been with the House OIG since 1998. During her time with the House OIG, Grafenstine led many ground-breaking audits, including the first-ever review of the House Complex fire and emergency response program, as well as numerous security and internal control assessments, including the deployment of Active Directory and the House payroll and financial management systems.

Gregory Grocholski, CISA
Chief Audit Executive, Auditor
Dow Chemical Company
ISACA International President 2012-2013

Grocholski is Chief Audit Executive at The Dow Chemical Company, where he is responsible for independently assessing the adequacy of accounting, financial and operating controls of Dow’s global operations. In this role, Grocholski has responsibility for corporate auditing, fraud investigative services and contract auditing. In addition, he is a standing ad hoc member of Dow’s global and regional ethics and compliance committees.

Grocholski is also a member of ISACA’s Audit Committee, Finance Committee, Professional Influence and Advocacy Committee, and Professional Issues Task Force. He has been a member of the Knowledge Board and Strategic Advisory Council, and has been ISACA’s Assurance Committee chair.
Tony Hayes, CGEIT
Deputy Director – General
Queensland Government, Australia

Tony Hayes is International Vice President of ISACA and Associate Director-General, Department of Communities, Queensland. He has extensive experience across the Queensland public sector in a variety of senior executive positions in line and central agencies. He has worked on various government projects, change management initiatives and task forces, and in line management positions in many departments in the Queensland Government. Recently, he has worked in Queensland Health, the former Service Delivery and Performance Commission, the Public Service Commission and now the Department of Communities.

Hayes has specialist experience and skills in strategic management and planning, organisational review and business process improvement, information and business strategy development, change management, and project management.

Adrian Hehl
Manager, Counter Cybercrime
Deutsche Post

Hehl is responsible as Manager Counter Cybercrime for establishing this function at Corporate Security of Deutsche Post DHL, a global player on mail and logistics service solutions with approximately 475,000 employees in more than 220 countries/territories. In his role, Hehl coordinates the alignment with IT security organisations of different business units. He is responsible to investigate into cybercrime incidents and to establish capabilities of IT forensic services to the group. He also consolidates information about cybercrime phenomena, and explains trends and observations to Senior and Executive Management.

Before joining Deutsche Post DHL, Hehl was manager of an Information Security department at an European financial service provider for defining the governance on IT security framework as well as assessing risk, adapting security concepts and improving security measures. Thereafter, he became an independent IT security consultant, focusing on security aspects of industrial control systems, and supporting the International Atomic Energy Agency (IAEA) in the area of nuclear security and provided consultancy to German energy transmission system operators (TSOs).
John Ho Chi, CISA, CISM, CRISC  
Partner  
Ernst & Young, LLP  

Ho Chi is International Vice President of ISACA and a partner in the IT Risk and Assurance practice of Ernst & Young in Singapore, where he is responsible for managing IT risk and assurance practices. He previously served with ISACA as a member of the Professional Standards Committee and in the local Singapore Chapter. Ho Chi has assisted clients in different areas of information systems assurance and advisory services security in a variety of industries. His expertise lies in the areas of data protection, BCM, Trustmarks, computer imaging, professional standards, COBIT, internal audit, application controls.

Dr. Giles Hogben  
EMEA Research Director, Cloud  
Security Alliance  

Hogben is European Research Director for Cloud Security Alliance. He is responsible for all CSA research projects in the EMEA region including EU-funded research projects and cross-industry European R&D initiatives. He is a security and privacy expert, and specialises in Cloud computing, web and mobile security. His previous role was at the European Network and Information Security Agency, where he led ENISA's 2012 Procure Secure study on continuous monitoring of Cloud services, as well as co-authoring ENISA's 2009 report Cloud Computing: Benefits, Risks and Recommendations for Information Security. He has led numerous studies on other network and information security topics including HTML5, app-stores and mobile security, botnet measurement and defense.

Susan Holleran, CPA MST  
Vice President, Audit and Risk Management  
Waters Corporation  

Successfully implemented Sarbanes-Oxley documentation of key business processes, testing of key controls and ongoing control procedures for current organisation, and continues to oversee ongoing testing and compliance. Supervised/executed numerous domestic and international risk-based internal audit and business process reviews designed to assess and recommend improvements to internal controls, policies, and procedures for compliance, effectiveness, and efficiency. Additionally, oversaw implementation/deployment of SAP GRC Suite of software. Developed and delivered training sessions to employees on subjects such as Sarbanes-Oxley, Enterprise Risk Management, Foreign Corrupt Practices Act and Anti-Bribery. Susan has spoken at numerous IIA and MISTI seminars and conferences on topics of GRC, ERM, Internal Controls, Going Global and Small Audit Shops. Currently Co-chair of Enterprise Risk Management project. More than thirty (30) years of audit (External and Internal), tax, and finance experience serving Manufacturing, Sales, Service and Financial Services industries.
Danielle Jacobs  
*Director, Chairman*  
INTUG/BELTUG  
  
Jacobs is General Manager BELTUG. BELTUG is the largest independent group of Belgian ICT Managers, with a specialised focus on company networks, mobile communications, UC and Cloud.  
  
Additionally, Jacobs is Chairman of the Board of INTUG (International Telecommunications User Group)—The international association of business telecommunications users. INTUG promotes business users’ interests at the international level and ensures that the voice of the user is clearly heard where telecommunications policy issues are concerned.  
  
She is also a member of the Belgian Consultative Committee on Telecommunications and a member of the Board of Directors DNS Belgium. The mission of DNS.be is to register domain names under dot.be, to facilitate the Internet access and to stimulate its use.  

Neil Jarvis  
*Global Head of Information Security (EMEA)*  
DHL  
  
With more than 20 years experience in both commercial and government information systems security, Jarvis has a proven track record in the specification, design and implementation of complex IT and security infrastructure solutions to meet business requirements. His experience has provided him with expertise in network infrastructure, server infrastructure, operating systems security, application security, information security, penetration testing, disaster recovery, business continuity, business requirements gathering, analysis, interpretation and delivery of pragmatic cost effective solutions.  

Per Johansson  
*Legal Officer*  
European Data Protection Supervisor  
  
Per Johansson is currently serving as a Legal Officer in the Secretariat of the European Data Protection Supervisor (EDPS) in Brussels, Belgium. He obtained a Master of Swedish Law from the University of Gothenburg and a post-graduate Diploma of European Law from the University of Saarland, Germany. He started his career in the Swedish Courts (as a Trainee Judge) before arriving in Brussels for a traineeship at the European Commission. After working as an EU-consultant for 5 years he re-joined the European Commission, where he spent 3 years before joining the EDPS’ Policy and Consultations Unit in November 2011.
Ilker Kuruöz
CIO
Turkcell

Kuruöz started his professional life in 1994 in ABT. He then worked in NCR as System Consultant, in Garanti Teknoloji as Division Manager and in Accenture as Senior Manager. Prior to his current position in Turkcell, he was Capacity Division Head of Turkcell. Kuruöz graduated from Bilkent University Computer and Informatics Engineering in 1992 and holds a Master's Degree from the same department.

Waleed Khalid, CISA
Senior IT Auditor, Internal Audit EMEA Region
MetLife

Khalid is an IT assurance professional from London with a broad range of internal and external audit experience in Financial Services, Investment Banking and Insurance. He started his career as a Consultant with Deloitte and has worked on various M&A related project reviews during RBS’s acquisition of ABN Amro. His key skills include IT general controls review, information security and BCP. He has worked with ISACA on a variety of projects since 2010, including CISA Standard Setting and more recently as a member of the COBIT 5 for Assurance Task Force. A self-proclaimed “geek,” he enjoys reading about the emerging technologies including Mobile Security, Cloud Computing and Social Media, and their implications on IT Risk.

Yves Le Roux, CISM
Technology Strategist
CA Technologies

After his graduation from Paris University in 1970, Le Roux worked in the Rothschild Group where, among others tasks, he was in charge of the network security and other security-related issues. In 1981, he joined the French Ministry of Industry where he was in charge of the Open Systems Standardization programs.

He is a frequent presenter (e.g., SecureCloud 2012, European ID management Conference 2012, EUROSEC/ISRM 2012); member of the ISACA Guidance and Practices Committee and the ISACA Cloud Computing Task Force; board member of AFAI (ISACA French Chapter); member of the Cloud Standards Customer Council Security Working Group; and member of the Cloud Security Alliance CAIQ Working Group.
Leonard McKeown, CISA
Manager, Internal Audit
Western Union

McKeown is a Senior Risk and Compliance professional with more than 20 years of experience. He is a qualified chartered accountant (FCA) and Certified Information Systems Auditor (CISA). McKeown is currently President of the ISACA Ireland Chapter. He is a Manager in internal audit at Western Union with responsibility for financial and operational risk areas, working mainly in the EMEA APAC region. Previously he was Group Internal Auditor for PM Group, a multinational engineering and project management company based in Ireland. Prior to that he worked in the Technology and Security Risk Services practice of Ernst & Young.

Lieve Mostrey
Executive Director and Chief Technology Services Officer
Euroclear

Mostrey joined Euroclear in October 2010 as Executive Director and Chief Technology & Services Officer of the Euroclear group. Ms. Mostrey is a member of the Euroclear Group Management Committee and an Executive Director of the Board. Previously, she was a member of the Executive Committee of BNP Paribas Fortis in Brussels, where she was responsible for IT technology, operations (including securities, payments, credit cards, mortgages, clients and accounts), property and purchasing. Ms. Mostrey began her career in 1983 within the IT department of Generale Bank in Brussels, moving to operations in 1997 and, upon its merger with Fortis in 2006, became Country Manager for Fortis Bank Belgium. She became Chief Operating Officer of Fortis Bank in 2008, which was acquired by BNP Paribas in 2009.

Robert Newbould, CISA
RN Consulting

Robert’s career has been varied, ranging from a research chemist in Paris to a chartered accountant in Sheffield, before his interests in IT took over. He has held senior roles in large blue chip companies including Chief Financial Accountant, Head of Internal Consultancy and Head of Audit. He has gained extensive IT experience in many fields but especially in risk management, security, audit and governance. In addition to extensive experience in the private sector, he has also worked on major government IT change programs in the public sector and currently runs his own consultancy. Newbould chairs ISACA’s International Chapter Support Committee and is an active member of ISACA’s Relations Board and Leadership Development Committee.
Dr. Evangelos Ouzounis  
*Head of Unit – Secure Infrastructure and Services*  
European Network and Information Security Agency (ENISA)

Dr. Evangelos Ouzounis is the Head of ENISA’s Resilience and Critical Information Infrastructure Protection (CIIP) Unit. His unit implements EU Commission’s CIIP action plan, organises the CIIP exercises (e.g. Cyber Europe 2010, Cyber Atlantic 2011, Cyber Europe 2010) and facilitates Member States efforts towards a harmonised implementation of incident reporting scheme (article 13 a of new Telecom Package).

ENISA’s Resilience and CIIP Unit runs also numerous other studies on cybersecurity aspects of critical sectors and services like Industrial Control Systems, Smart Grids, interconnected networks, maritime and finance. The program issues strategic recommendations and develops good practices for relevant stakeholders.

Prior to his position at ENISA, Dr. Ouzounis worked several years as a Project Officer at the European Commission, DG Information Society and Media (DG INFSO). He contributed significantly to EU Commission’s R&D strategy and policies on securing Europe’s infrastructures and services. Dr. Ouzounis was co-founder of Electronic Commerce Centre of Competence (ECCO) at Fraunhofer Institute for Open Communication Systems (FhG-FOKUS, Berlin, Germany). He led and managed more than 20 pan European and International R&D projects.

Dr. Ouzounis holds a Ph.D from the Technical University of Berlin and a Master’s in Computer Engineering and Informatics from the Technical University of Patras, Greece. He was a lecturer at Technical University of Berlin, wrote two books and more than 20 peer reviewed academic papers and chaired several international conferences.

Jamie Pasfield, CGEIT  
*Senior Manager, Global IT Strategy & Governance*  
Pfizer

Pasfield is an inspiring, strategic and entrepreneurial leader whose last 12 years have been with two of the top 10 pharmaceutical companies in UK, EMEA and global leadership roles delivering business value through IT and process innovation. He’s currently delivering strategic innovation for Pfizer’s global IT capabilities. He also chairs the Emerging Business Technology Committee in ISACA, is a member of their Strategic Advisory Council and their Knowledge Board, and was the sole pharmaceutical industry representative on the small select global team that developed ISACA’s recently published IT capabilities best practices COBIT5.

Pasfield has a broad and deep understanding of the pharmaceutical industry and its IT needs. His strengths include leading strategic technology-related capability innovation, identifying opportunities to leverage IT and process innovation to deliver value, stakeholder management & influence, and developing strong teams. He’s a very personable and strong communicator who acts as a catalyst to bring business needs and technology-enabled solutions together to create value. He’s adventurous, analytical and comfortable in ambiguous situations, with a background in technology business management, business innovation consulting, and as an Army officer.
Ivan Sanchez Lopez, CISA, CISM, CISSP  
*Group Functions Security Analyst*  
Vodafone Group Services GmbH  

Sanchez is part of the Vodafone Group Technology Security Team, based in Düsseldorf. His current role includes the support for internal projects for Vodafone Group and Vodafone Local Markets, ensuring compliance with Security Requirements during the project lifecycle. Before, he worked for Vodafone Spain in the Information Security Team and as a Security Consultant for Ernst & Young (Madrid Office) in projects for implementing ISO 27001, COBIT or BCM frameworks in several industries like banking, insurance, utilities and public-held organisations.

He is a member of the ISACA “Young Professionals Subcommittee” for 2012-2013, where he supports the ISACA organisation by aligning the overall organisation’s strategy for Young members (<35 years). Sanchez qualified as a Computer Engineer at the University of Madrid and holds the CISA, CISM, CISSP, ISO 27001 LA and ITIL v2 certifications.

Carlo Selwat, PMP  
*Senior Vice President Infrastructure & Support*  
Schenker AG  

Selwat was Transition & Transformation Director / Program Manager at T-Systems in large outsourcing deals. He also provided IT Management functions at T-Home and Motorola for sector CIO level. Before engagement at Deutsche Telekom, he worked as an IT Director for a number of years in regional and global roles at Motorola with varying work scope and content. Previous to the IT Director role, he was an IT Manager at Motorola Berlin for 3+ years. Before joining IT, he held various non IT positions at Bosch Telecom and at Motorola in Supply Chain and Sales for 6+ years.
Amar Singh, CRISC

CISO

News International Corporation

Amar Singh, CISO of News International and Chair of the London Chapter ISACA Security Advisory Group, is a C-level executive leading the Global Information Security landscape with his benchmark-setting approach to securing and protecting organisations. A thought leader who also delivers quick and on-budget results, Singh brings a unique fusion of pragmatism, practicality, with a healthy dose of proportionate paranoia to his work, and is commanding the information security and assurance space with his approach to information security governance, risk and compliance. Several companies are seeking Singh’s industry-leading views and comments on all things information security. Publications include: Forrester, Computer Weekly, The Register, TechWeek Europe, Computer Fraud & Security, Quocirca, CIR, TechWorld Computing, SC Magazine, CEO, ICAEW, V3, IT Security Pro, Computer Fraud & Security, and Tech Boson. Apart from his engaging presentational approach, Amar is also well known for his ability in bridging both deeply technical, managerial and leadership skills. His passion on all things information security, risk and compliance has made Singh a sought-after speaker.

Dr. Dieter Steinbauer

Senior Consultant, Professor

4tunes_strategies, RWTH University Aachen

As a member of the executive board of SCHUFA Holding AG, Steinbauer’s responsibilities include IT, Operations, Finances, HR and International Affairs. He is a Computer Scientist and honorary professor at the RWTH-University in Aachen, and has represented the SCHUFA in ACCIS since 2001. In his role as a member of the Executive Committee of ACCIS, he represents and promotes the common interests of its members—consumer credit bureaus in Europe—in particular with regard to international matters and questions arising in connection with the European Community.

Jo Stewart-Rattray, CISA, CISM, CGEIT, CRISC

Director of Information Security

RSM Bird Cameron

Stewart-Rattray has 25 years of experience in the IT field, some of which were spent as CIO in the utilities space, and 16 in the information security arena. She is a Fellow of the Australian Computer Society and was a member of CIGRE’s international working group B5.38, which assessed information security risks in power system operations within SCADA systems and the implementation of appropriate controls. She is a past International Vice President of ISACA and has served as President of the ISACA Adelaide Chapter, and chair of ISACA’s Leadership Development Committee and Security Management Committee. Currently, she is chair of the Audit Committee and a member of the COBIT Security Task Force.
Robert E. Stroud, CGEIT, CRISC  
*Vice President, Innovation and Strategy*  
CA Technologies  
INSIGHTS 2012 Conference Co-Chair

Stroud is a Vice President at CA Technologies and the global evangelist for service management, governance and cloud computing. He is a globally recognised author, contributor, strategist, speaker and authority on the delivery of operations and the enterprise governance of IT. He brings his significant practical industry experience to this role including the implementation, contribution to, and writing of good practices, working with the analyst community and the global practitioner community. In his role, he is dedicated to the continuing development of industry best practices and assisting organisations deliver solutions that leverage these best practices and deliver enterprise governance of IT.

Peter Vander Auwera  
*Innovation Leader*  
SWIFT Innotribe

Peter Vanderauwera is Co-Founder of Innotribe, the innovation initiative of SWIFT. As a member of this innovation team, he is Architect and Content Curator for the main Innotribe events such as Innotribe at Sibos. He is responsible for various innovation proofs of concepts and incubation projects. Peter joined SWIFT in 2005. Prior to SWIFT, Peter was at Microsoft as EAI Solution Sales and Business Development Manager for Microsoft's Electronic Identity Card plans in Belgium, for which he received in 2005 the Microsoft Chairman’s Award. Throughout his career, he has won several innovation- and going-beyond awards. Peter is Belgian, married to Mieke and proud father of a 7-year-old daughter.

Ken Vander Wal, CISA  
2011-2012 ISACA International President

Vander Wal is a retired national partner in the Technology and Security Risk Services practice of Ernst & Young, where he was responsible for the firm’s global TSRS quality and risk management program. With more than 40 years of IT experience, he has worked in multiple areas of information systems in a variety of industries, including systems development, systems programming, project management, quality assurance, IT auditing and systems security. Before joining Ernst & Young in 1979, Vander Wal worked at the Pentagon, where he developed systems to support the Department of Army staff, and for a computer software company in a systems technical support role. He is a coauthor of IT Control Objectives for Sarbanes-Oxley, 2nd Edition, published by ITGI, and serves on ISACA’s Guidance and Practices Committee, Knowledge Board, Professional Issues and Advocacy Task Force, and Strategic Advisory Council. He has served as International Vice President of ISACA since 2007.
Johan Vandendriessche  
*Lawyer, Adv*  
Johan Vandendriessche BVBA  
Vandendriessche is a Belgian-based independent IT Lawyer specializing in IT contracts, information security, privacy and data protection. In 2001, he was admitted to the Bar after having gained experience in data protection issues as an academic researcher. In addition to his current activities as a Lawyer, he is also the author of several publications and a frequent speaker at conferences and seminars.

Peter Wood  
*CEO*  
First Base Technologies LLP  
Wood is a world-renowned security evangelist, speaking at conferences and seminars on ethical hacking and social engineering. He has appeared in documentaries for BBC television, provided commentary on security issues for TV and radio and written many articles on a variety of security topics.  
Wood has worked in the electronics and computer industries since 1969. He has extensive experience of communications and networking, with hands-on knowledge of many large-scale systems. He founded First Base Technologies in 1989, providing information security consultancy and security testing to commercial and government clients. Peter has hands-on technical involvement in the firm on a daily basis, working in penetration testing, social engineering and security awareness.

Andreas Wuchner, CISA  
*CIO Security Technologies*  
UBS
