

## Improve your chances of passing ISACA's CISA Exam

### ISACA London Chapter four day CISA Exam Preparation Workshop (Monday 13th May to Thursday 16th May 2019)

The London Chapter is pleased to offer an intensive four-day CISA review workshop to help you prepare for the 2019 CISA examination. The number of course delegates is limited to ten, in order to provide a more focused learning environment.

The cost of the course for ISACA members is £695. The cost for non-members is £895. The cost includes handouts in pdf format, lunches and refreshments for the four days of the course. It is aimed at Finance/CPA professionals, IT professionals, Internal & External auditors, IS / IT Auditors, IS / IT Consultants, IT / IT Audit Managers, Security Professionals, anyone with 3 - 5 years working experience in information security management and auditing.

The training will be provided by an accredited ISACA Chapter Trainer. The advantage of this is that course materials are up-to-date so that there is better alignment between preparation and exam-taking. This allows candidates to get more out of their investment in training, resulting in more efficient preparation and reducing the need for re-examination and additional preparation. The course utilises the official ISACA CISA preparation course material, going through each of the five CISA Domains:

- Domain 1 - The Process of Auditing Information Systems
- Domain 2 - Governance & Management of IT
- Domain 3 - Information Systems Acquisition, Development, & Implementation
- Domain 4 - Information Systems Operations, Maintenance, & Service Manager
- Domain 5 - Protection of Information Systems

We provide hints and tips on passing the exam throughout the four days, spotting the likely answer to questions etc. At the end of each Domain we go through some example exam questions, then on the last day, we do a mock half exam. This allows attendees to see where their strengths and weaknesses are in each Domain and where they need to do more revision.

The course will be run at a convenient location in London, Sobus, 20 Dawes Road, Fulham, SW6 7EN (nearest tube station, Fulham Broadway).

#### What is CISA

Since its inception in 1978, more than 140,000 people have obtained ISACA®'s Certified Information Systems Auditor® (CISA®) certification to validate their expertise in understanding and performing vital roles within their job practice. Demand for CISA certification continues to grow as enterprises place increased value on ensuring their technology is being leveraged securely and effectively. Now more than ever, recruiters and hiring managers around the globe seek CISA-certified professionals for important roles at their enterprises. The CISA course equips information professionals with the knowledge and technical skills for proficiency in IS audit, control and security.
