## President's Message

Dear Chapter Members,

Now that we are well into 2014, we can get back to work. I hope you all benefited from the joint conference with IIA. Hopefully we get to plan other such events with other organizations in the greater OKC metro area. We are working to line up interesting speakers with good topics for the rest of the year. A couple of topics coming in the near future are Security in the cloud and Cyber Attacks – Beyond the Compliance Check-box. Also, this month our speaker is the CIO from Mid First Bank. Hope you would enjoy the presentation.

Please remember to update your contact information at the ISACA site. Pass this information on to your friends as well. As always please let us know if you are interested to volunteer or have any topics or other training suggestion. Please feel free to contact us at [isacacentralok@gmail.com](mailto:isacacentralok@gmail.com) with any suggestions.

Jay Thirumalai, President  
ISACA Central Oklahoma Chapter

## Speaker's BIO

Kent Nabors serves as Chief Information Security Officer, responsible for Information and Physical Security for MidFirst Bank, a \$10 billion, privately-owned, multi-state institution. Mr. Nabors has significant experience in the banking and IT industries. He has worked in bank examinations with the Federal Deposit Insurance Corporation and the Federal Reserve Bank of Kansas City. He also worked in IT consulting before joining MidFirst Bank in 1998. At Mid-First, he managed the network infrastructure before establishing the Information Security department.

Mr. Nabors holds the GSEC certification from the SANS Institute and received his MBA from the University of Oklahoma. He is also the co-author of the book "Dissecting the Hack: The F0rb1dd3n Network".

## Topic Synopsis

In The Wizard of Oz, Dorothy, the Tin Man, and the Scarecrow try to find their way through a dark forest as they follow the yellow brick road. While in the forest they repeatedly exclaim "Lions and tigers and bears – Oh my!". They are afraid of threats both real and imagined. Information Security practitioners work to help their companies and clients navigate a similar forest. In fact, the forest isn't the only place filled with dangers along the journey.

We will talk about some of the real and imagined threats, risks, and controls along the digital road of business today.

## Please Join Us!

## Call for Volunteers

Central Oklahoma Chapter

Nominating Committee

2013-2014 Chapter Board positions

See page 2 for details.

## Renew Your 2014 Certification Now

Take charge of your professional recognition. Renew your CISA, CISM, CGEIT and/or CRISC certification in 2 easy steps—pay the annual certification maintenance fee and report your continuing professional education (CPE) hours. You have until 31 December 2013 to earn CPE hours for your 2014 renewals. The deadline is nearing—visit the [My Certification](#) page of the ISACA web site and review the status of your annual and 3-year CPE reporting requirements.

The CPE policy requires earning a minimum of 20 CPE hours each year and 120 CPE hours during your 3-year reporting cycle. With the new simplified CPE reporting system, CPE hours for your ISACA credentials can be entered individually as they are earned or as a total for the year.

If you find yourself needing CPE hours to meet the requirements, your ISACA membership provides you with a number of free and low-cost opportunities, including via [ISACA Journal CPE quizzes](#), [mentoring](#) and [online learning](#). To learn more about CPE opportunities and recording CPE hours, please visit the [How to Report and Earn CPE](#) page of the ISACA web site.

## Announcing COBIT 5 Enabling Information

Keep in Compliance—[Download](#) COBIT 5: Enabling Information

ISACA®'s newly released COBIT 5: Enabling Information applies the tried and trusted management framework of COBIT® 5 to create a secure and compliant structure for governing enterprise information—from conception, through utilization to disposal. Download COBIT 5: Enabling Information to reduce risk and keep your enterprise compliant with common governance and management issues, including:

Big Data | Master Data Management | Information Disintermediation | Privacy
