**Date/Time: 27 March 2018, 2.00pm – 5.00pm Location:
Sime Darby Convention Centre, Kuala Lumpur**

Overview

ISACA Malaysia Chapter is proud to organize a half day members' talk on Cyber Risk, IT Audit Roles and the NIST Framework. Join us for this free only for members 3 hours talk!

Our esteemed professional speakers shall share with you :

1. Current Landscape of Cyber Risk and Emerging Trends
2. The Role of IT Auditors in Assessing Cyber Risk
3. Using ISACA's Audit Work Program: Cybersecurity Based on NIST Framework

Insights: Current Landscape of Cyber Risk & Emerging Trends

Cyber risk is now a major threat to businesses, exposing many organisations to uncertainties and disruptions. The growing frequency and impact of cyber-attacks have propelled cybersecurity to the top of the board agendas recently. Organisations increasingly face new exposures, including first-and third-party damage, IT security systems breaches, business interruptions and regulatory consequences. With the operating environment changing dramatically as they become more digitally-connected, we will examine cyber risk trends, emerging exposures and seek ways of countering them effectively. After all, cyber security is fundamentally about protecting an organization's shareholders' value.

Insights: The Role of IT Auditor's In Assessing Cyber Risk

- Determine who are parties to engage
- To understand the importance of cyber risk assessment
- Determine when to perform the cyber assessment
- Know what to do and what is expected to achieve from the assessment
- Determine where to start and how to assess cyber risk

Insights: ISACA's Audit Work Program: Using the NIST Framework

- Understanding the NIST Framework
- Using the ISACA Audit Work Program to assess the cybersecurity controls in your organisation

Keys Take Away

- ✓ Understand the emerging cyber risk exposure;
- ✓ Recognise the need for cyber security in the organizations;
- ✓ Understand the role of IT Auditors when dealing with Cyber Risk;
- ✓ Understand how ISACA Audit Work Program can help you audit cybersecurity controls.
