

Half Day Talk: IT Assurance, Security & Governance

Date/Time: 2 August 2016, 2.00pm – 5.30pm

Location: Sime Darby Convention Centre, Kuala Lumpur

Overview

ISACA Malaysia Chapter proudly brings this members' talk aimed at raising awareness—and building up knowledge and understanding of IT Assurance, Security and Governance in the area of Cloud Services and Social Media and their roles in corporate business.

Our esteemed professional speakers shall share the

1. Challenges in cloud computing and assurance on cloud services
2. Assurance and governance of the constantly evolving social media landscape

Insights: IT Assurance in the Cloud Services

Businesses everywhere are repositioning themselves to leverage the cloud. However, like most technology changes, cloud computing presents its share of risks and challenges. Security had been one of the main obstacles for cloud adoption in the past. However, vendors now understand the security and privacy concerns of their global customers and have taken proactive steps to improve the maturity.

The emergence of cloud computing generates new needs in terms of providing assurance about the cloud services, especially about security, privacy and availability. The facilitator will talk about the approaches/ techniques that a client may use to obtain adequate assurance in the cloud.

Insights: Auditing & Governance of Social Media

Social media has evolved to become a key strategic business imperative. It is no longer just about friends, networks, likes, posts, sharing, tweets or re-tweeting. Year-in, year-out, social media numbers are shooting through the roof is radically shifting business engagements. It is anticipated by 2017 that over 5 billion people will be social media users. Social media is expected to unlock value in excess of \$1.3 trillion in the coming years—and has become pervasive in supporting and enabling the strategy of organizations—mandating the governance and auditing of Social Media as an organizational imperative.

Keys Take Away

- Understand cloud services and social media content management
- Recognize social media logical access governance and management
