

ISACA MALAYSIA CHAPTER GET TO KNOW MEMBER

QUESTIONNAIRE

Dear Members,

It's time to introduce another member in our Get to Know the Members space! Meet Ms. Tan Peck Hoon. Let's hear Peck Hoon sharing little background about herself and experience being a ISACA member.

1. Please share with us a little background about yourself

I would call myself a local Klang Valley resident. I grew up in Kajang and later studied in the University of Malaya. Upon graduation, I worked in one of the big 4 accounting firms and trained as an accountant. Thereafter, I spent a good number of years working in Singapore before returning home to Malaysia due to family reasons. I am married with 2 kids.

2. Please tell us on how you became a member in ISACA and what was your first impression of it?

While I was working in Singapore, it seems kind of fashionable to have various certifications. Since I was always curious to know more about IT audit and having to manage various IT audit as part of the overall audit engagement at work, it made sense to acquire the certification in order to be more knowledgeable about the entire process.

3. What do you find most interesting about getting involved in ISACA events?

I like meeting up with the different people from different organizations. Also, the topics that are discussed keep me abreast of the profession and developments in the IT front.

4. How do people commonly describe about yourself?

People would say that I am quite an easy going person. However, I can be meticulous at work.

5. What do you do during your leisure time?

I don't really have a lot of leisure time as I have a daughter who is only 4 years old. As those of you who have family would realize, they do take up a lot of your time. However, I love to spend time with my family. My son is already a young teenager, so there are different needs altogether.

ISACA MALAYSIA CHAPTER GET TO KNOW MEMBER

When I have some time to myself, I love to bake and read. My daughter loves to “assist” me in doing every single step of the baking process. Hence, it can be a lot of fun and clean up while my son and husband contributed towards eating the food!

6. What is the one thing which most people would be surprised to know about you?

There was once in my life when I thought of having my own bakery business. I guess I am too busy with my family and work to do this. Maybe I will do it when I retire. There was a period when I used to experiment baking different types of cheesecakes and my husband is the one who polished it up. At the end of 2 months, he told me to stop! Reason being: He has gained 2-3 kg of weight. Can't stop someone from trying, right? 😊!!

7. Who is your role model in life?

I don't really have any specific role model in my life. I like different aspects from different people and tend to try to emulate the part that I like about that person. So, the end result may be like a “rojak”!

8. What is your personal philosophy about life?

I believe that the world is a smaller place than we imagine. We should always be human and do unto others what we would have them do unto us. Sometimes, God works in mysterious ways, you would never know when your path will cross again with someone you know.
