

Welcome...

Greetings Fellow Greater Cincinnati ISACA Members,

Time is running out to renew your ISACA membership. The Greater Cincinnati ISACA Chapter Board has set a goal of achieving an 88% renewal rate by 3/31/2016. To show the Chapter Board's appreciation to all Chapter members, I am pleased to announce that the Chapter will offer a free dinner meeting with 1 CPE to members for our September 2016 meeting. In addition, if the Chapter meets the renewal goal, members will be eligible for receiving special prizes during the September meeting. We encourage you to visit [ISACA International's Membership Page](#) to renew today! Don't risk losing your membership benefits due to the accelerated purge date. We value your expertise and hope you will take time to renew your 2016 ISACA® membership.

Our annual general meeting will be held May 3, 2016. At that meeting we will be electing officers for the next two-year term. We will also be asking for approval of our amended bylaws. The bylaws and the slate of officers will be sent to all members before the end of March.

Shannon Glass provided an informative and entertaining discussion on how to build a cybersecurity approach from the beginning.

Our April meeting will be held April 5, 2016 at the Montgomery Inn. Our speaker, Robert Ramsay will be discussing Third Party Vendor Management – Comparing Approaches in the Healthcare and Banking Sectors (HIPAA and OCC 2013-29). On April 14 and 15, Mr. Ramsay will be teaching the CSX Fundamentals training course. The course will be held at the University of Cincinnati. The course is designed for the beginner to intermediate level. This course is appropriate for students and recent graduates, as well as people with zero to three years cybersecurity experience. See our web page www.isaca-cincinnati.org for additional information and to register for these two training opportunities.

CPEs for Greater Cincinnati ISACA training events are uploaded to ISACA International. Members need to logon to the ISACA web site and apply the CPEs to their certifications. These CPEs are not subject to audit, if you get selected for an audit of your training.

I encourage you to join our LinkedIn group if you are not a member. I post training opportunities in the group that I learn about from other ISACA chapters. This will give you additional options for earning CPEs. We also have a Facebook page.

If you know anyone in the audit or security profession who might benefit from ISACA membership, please invite them to one of our meetings or put them in touch with our board so they can find out more!

Do you have any coworkers that are not receiving this newsletter and would like to? If so, have them send an e-mail to our Newsletter Editor, [Kyle Schutte](#) and request to be included on the e-mail distribution list. If you are interested in becoming a member of the chapter, please contact our VP of Membership, [Mike Smith](#). As a reminder, our website is the best place to learn about upcoming events and available job opportunities in the Greater Cincinnati ISACA area! Check it out at: www.isaca-cincinnati.org! As always, I am happy to hear any comments you have, so feel free to e-mail me at rkrickisaca@gmail.com.

Russell Krick, CISA,
Greater Cincinnati ISACA President

ISACA 2016 Certification Exam Review Courses

Are you planning on taking an ISACA certification exam in the future? If you answered yes, did you know that ISACA offers CISA, CISM, CGEIT, CSX and CRISC Exam Review Courses? These review courses are one of the many ways to prepare for the ISACA's exams. There is also a CISA review course offered online.

Go to this [page](#) to find out more details or find a review course near you.

Upcoming Webinars

ISACA Members can earn free CPEs by attending a 60 minute ISACA webinar. Increasing your knowledge of important and relevant IT and IS topics is just a bonus.

Here are the upcoming Webinars:

Topic: PCI DSS: Developing Robust Trojan Defenses
Presenter: Jim Seaman, Security Consultants Team Lead, Nettitude Group
Date: Thursday, 31 March 2016
Time: 12PM (EST) / 11AM (CST) / 9:00AM (PST) / 17:00 (UTC)

Overview: Legend has it that in 1200 B.C., King Agamemnon of Mycenae, led a coalition of Greek forces to lay siege against the City of Troy. The goal was to reclaim Menelaus's wife, Helen (a queen from Sparta), who had been abducted by the Trojan Prince Paris. Troy was subjected to 10 years of hostile activities from a determined enemy, applying numerous different methods to identify and exploit any vulnerability in the city's defenses. However, despite the best efforts of the attacking Greek forces, an array of physical defenses stood up to these actions. The barrage of attacks lasted for over 10 years, without success, and even led to the death of Achilles. This was until they exploited the failings of the human factor, where the Greeks delivered an attractive gift, containing an unknown and dangerous payload.

The secret to the success of the City of Troy's defensive measures was not created overnight; in fact, it was the result of nine layers of development spanning over five layers of improving architecture and 1,300 years (2,500 B.C. – 1,200 B.C.). The result was a comprehensive suite of Defense in Depth (DiD) security countermeasures, including:

- Strategic placement of access/egress gates
- Strict restriction of inbound and outbound traffic flows
- Secure residence for Helen of Troy
- Escorted convoys
- Entry/exit searches
- Vulnerability assessments
- Robust access controls
- Authentication
- Segmentation
- Internal patrols
- External patrols
- Perimeter defenses

Click on this [link](#) to find out more details or to register

You can register ahead of time for up to two new webinars each month; presented live by subject matter experts and accessible to you free of charge. Enjoy interaction with the presenter in the live format or view the entire webinar after the event on your schedule. These brief, yet extremely informative, web-based, education sessions are available in ISACA archives for up to a year after the event.

Job Opportunities

Company: Clark Schaefer Consulting

Position: IT Audit Consultant

Location: Cincinnati and Columbus, OH

About the Company :

Clark Schaefer Consulting is an established professional services firm associated with Clark, Schaefer, Hackett CPAs, one of the top public accounting firms in the region. As a firm, we have been performing consulting services within the Cincinnati business community and surrounding area for 10 plus years and prior to that time, as part of our CPA firm affiliate for 75 years. Due to increased demand from our clients and the outlook for our services in 2016, we are currently seeking information systems professionals as consultants for full-time, salaried positions at our Cincinnati and Columbus locations.

By design, we serve a diverse set of regional clients ranging from the Fortune 1000 to privately held corporations. As a regionally based firm, we believe we offer an ideal work-life balance for those who enjoy client service work, but want to avoid the extensive travel and time requirements of the national firms. If you are interested in having diversity in your work experience; expanding your personal knowledge base; and being part of assisting the top companies in your community as they improve their operations, this is a great opportunity for you.

Job Description:

Based upon skills and experience, the successful candidates will join a team of professionals performing a range of IT audit, internal audit, and other related information system services. These services could include IT audits, process improvement, policy/procedure development, disaster recovery reviews, network architecture assessments, IT risk assessments, application control reviews, systems implementation assistance, and a wide variety of other technology related services. For more details on specific potential projects, please visit our website for a listing of the services we typically perform which might fit your background and skills.

Primary Responsibilities:

- Provide IT auditing and other technology related services to fulfill individual engagement requirements.
- Assist with the development of project plans, methodologies and client proposals as needed.
- Maintain a consistent level of chargeable hours to fulfill annual billable expectations.
- Travel to client locations as required throughout the year.
- Maintain a commitment to continuing education and professional development.

Education & Experience:

- Bachelor's degree in technology or related field.
- Relevant IT audit or information technology experience.
- Professional certifications such as CISA, CISM, CIA, CISSP are a plus.
- Excellent written and verbal communication skills.
- Ideal candidate would have 1-4 years of experience.

To Apply:

Please e-mail your resume, cover letter and salary history to recruiting@clarkschaefer.com . For more information concerning our Firm and services, please visit www.clarkschaefer.com.

Job Opportunities

Company: Cincinnati Insurance Company

Position: IT Governance Risk & Compliance Service Manager

Location: Fairfield, OH

About the Company :

The Cincinnati Insurance Company, a subsidiary of Cincinnati Financial Corporation, stands among the nation's top 25 property casualty insurer groups, based on net written premiums. Our commitment to the independent agency system began in 1950 and is our company's core strength and competitive advantage. We excel by offering agents and policyholders a local presence, unparalleled claims service, loss control consultation services, work-saving technology initiatives, and competitive products, rates and compensation. Selected associates receive a comprehensive salary and benefits package, including a matching 401(k). Equal Opportunity Employer.

Job Description:

We are currently seeking an IT GRC Service Manager to lead our Information Technology Governance, Risk and Compliance service area. This includes oversight and evaluation of the management controls within our IT Department to determine whether our systems are safeguarding assets, maintaining data integrity and operating effectively to achieve the organization's goals and objectives.

Specific Responsibilities:

- lead the IT GRC Service area by developing, creating and maintaining procedures, processes, and standards for the service area and IT, including the IT GRC audit plan, IT GRC business continuity plan and team's internal system access
- define team objectives, set goals and track progress to ensure objectives are met
- inform director of status in a timely and accurate fashion
- coordinate service area workload by managing the work intake process by prioritizing and assigning tasks to associates.
- conduct detailed reviews of IT auditor projects and facilitate appropriate documentation; leverage director guidance as needed
- partner with Resource Manager(s) to continually evaluate service area team members and provide real-time, constructive feedback
- provide oversight and leadership in the planning, design and execution of general IT control audit programs including operational process reviews, reviews of records retention policies, vendor management, change management, system implementations, applications, databases, IT infrastructure and other IT related risk areas
- function as the IT GRC subject matter expert in support of IT and operational audits and regulatory audits such as HIPAA, PCI and SOX
- independently manage the audit of departmental or specific service area systems
- review audit documentation to determine information technology system risks and the potential impact of risks on the organization
- perform root cause analysis on exceptions identified during audits including the composition of memos to address the remediation efforts
- communicate with and educate other service area directors, service managers and process owners on the importance of controls, an effective control environment and the role of IT GRC
- track status and results of current and prior audits, identify audit themes across departments, propose practical solutions and determine whether appropriate corrective actions have been designed and implemented to address IT audit concerns
- participate on varied teams or committees as an IT GRC representative

... Continued from page 7

Specific Responsibilities (Continued)

- work effectively with associates at all levels in varying departments and service areas
- actively monitor the regulatory environment for new laws and regulations that impact technology; leverage findings to assist with ongoing maintenance of annual audit plan and to ensure compliance
- assist in the research of new technologies and provide recommendations based on benefits or impacts on current systems
- execute audits of programs and projects ensuring they are effectively and efficiently managed and in alignment with organizational objectives
- improve risk management of corporate priority projects by conducting and facilitating risk assessments
- lead by example and gain influence by demonstrating humility and respect for others

Job Requirements:

- excellent oral and written communication skills
- ability to work independently and within a team environment
- excellent time management and prioritization skills
- excellent negotiation and conflict management skills
- strong analytical skills
- detail oriented
- ability to adapt and quickly understand a new and complex environment
- comfortable in relationships with all levels of management and associates
- bachelor's degree required in related field of study (e.g., Management Information Systems, Information Technology, and Computer Science).
- professional certification required (i.e., CISA, CISSP, CIA, CISM, CPA, etc.).

Preferred:

- three or more years of "Big Four" technology audit experience, post Sarbanes Oxley
- demonstrated experience writing reports of control descriptions, internal control findings and recommendation
- demonstrated experience with internal controls, risk assessments, business process and internal IT control testing or operational auditing

Job Opportunities

Company: Fifth Third Bank

Position: IT Audit Staff or Senior

Location: Cincinnati, OH

About the Company :

Fifth Third Bancorp is a diversified financial services company headquartered in Cincinnati, Ohio. As of December 31, 2014, the Company had \$139 billion in assets and operated 15 affiliates with 1,302 full-service Banking Centers, including 101 Bank Mart® locations, most open seven days a week, inside select grocery stores and 2,638 ATMs. Fifth Third operates four main businesses: Commercial Banking, Branch Banking, Consumer Lending, and Investment Advisors.

Job Description:

Conducts IT governance, infrastructure & support, integrated business process and application audits for various lines of business/functional areas within the Bancorp. Primary responsibilities include performing IT audit activities in the planning, fieldwork, reporting and wrap-up phases in accordance with established standards. Seniors will be responsible for supervision of assigned staff personnel (typically leads 1-2 staff per audit) and ensuring that the execution of all audit phases is conducted in accordance with established standards.

Specific Responsibilities:

- Ensure execution of all audit activities in the planning, testing, reporting and wrap-up phases are in compliance with the Audit Division's methodology /standards and within the timeframes to support department metrics
- Challenge, validate and execute test strategies to determine the effectiveness of internal controls and compliance with regulations; incorporating appropriate tools, techniques and technology.
- Establish, foster and maintain working relationships with peers and supervisory management within the business line and cross-functional lines to support an effective workflow, continuous communication and value to customer.
- Participate in departmental processes and initiatives that promote team effectiveness, employee engagement and resource development.
- Attend Bancorp sponsored and other training to build industry knowledge and technical capabilities.

Additional Responsibilities for Senior Auditor:

- Develop audit scope and objectives, risk and control assessments, work programs, and other deliverables of audit work.
- Delegate responsibilities to audit staff members, and review audit work papers providing coaching feedback on work prepared by staff auditors.
- Communicate information to management through presentations and internal audit reports.

Job Requirements:

- Bachelors degree required; Computer Science or Management Information Systems preferred. Other related academic majors (e.g., Accounting or Audit) should be accompanied by relevant experience in IT or IT Audit.
- Encouraged to pursue CISA certification and/or related professional certifications such as CISSP, CPA or CIA.
- IT or Financial services industry experience and/or public accounting firm experience desirable.
- Proficient with MS-Windows and other related PC applications. Possess the desire and ability to learn mainframe and distributed applications as well as automated data analysis tools and Techniques
- Strong written and verbal communication skills required.
- Senior candidates will demonstrate coaching, leadership and project management skills.

Job Opportunities

Company: Hillenbrand, Inc.

Position: IT Internal Auditor III - 1500000131

Location: Batesville, IN

Job Description:

The IT Internal Auditor will work closely with the business unit management, finance and IT leadership, external audit firms and, as needed, co-sourcing firms. The IT Internal Auditor must be able to execute the assigned audit areas to timely and successful completion.

Essential Duties and Responsibilities include the following:

- Conduct more complex audit activities to analyze and evaluate the performance of the organization's financial, operational, managerial, and IT processes and systems to identify risks, areas for improvement, and to ensure that the organization complies with all relevant regulations, laws, and standards.
- Conduct routine and complex audit projects independently; plan, organize, and schedule own workload so that audit activities are completed accurately and on time.
- Collect, examine, analyze, and verify information about the organization's systems and processes by reviewing manuals, policies, reports, financial statements, and other written materials, and by interviewing organizational members where required.
- Develop recommendations for changes to processes and systems that will minimize risk, improve performance and productivity and ensure that the organization complies with all relevant regulations, laws, and standards.
- Prepare audit reports that accurately document the audit process and its findings.
- Partner with and build strong working relationships with business line management
- Participate in the risk assessment process;
- Mentor and train junior auditors and/or business line guest auditors;
- Participate in development of internal audit policy and procedure documentation;
- Other duties may be assigned.

Supervisory Responsibilities

This position does not have any direct supervisory responsibilities.

Education

Bachelor's degree (B.A./B.S.) or equivalent from a college or university in Accounting, Finance, IT or MIS; and a minimum of 5 years IT audit and/or IT experience in a corporate environment, or with a Big 4 firm; or equivalent combination of education and experience with an emphasis in IT audit.

A professional security, audit, or control-related professional certification such as CISA, CIA, or CISSP is preferred.

Skills/Experience

- Basic Microsoft Office skills required
- Sarbanes Oxley compliance experience required
- Experience interacting with all levels of management required
- German or Chinese Mandarin language skills preferred
- Public accounting experience preferred
- Manufacturing industry experience preferred
- Basic experience in the assessment of internal controls and communicating findings and recommendations to others clearly and accurately in non-technical terms preferred

Job Opportunities

... Continued from page 10

Skills/Experience (Continued)

- Intermediate understanding of IT processes and technology, with demonstrated proficiency in one or more of these applications (JD Edwards, SAP, Hyperion) required
- Expert understanding of controls related to information security, program/project management, and/or infrastructure services (operating systems, databases, and network) required

Travel

Employee must be able to travel 20% of the time.

Physical Demands

To perform this job successfully, the physical demands listed are representative of those that must be met by an employee. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

While performing the duties of this job, the employee is regularly required to sit, stand, walk, use hands to handle and feel, reach with hands and arms, talk and hear. The employee may occasionally be required to crouch. The employee may occasionally lift items as heavy as 25lbs. Specific vision abilities may include the employee's ability to see near and far distances.

DISCLAIMER:

The above information on this job description has been designed to indicate the general nature and level of work performed by the employee within this classification. It is not designed to contain or be interpreted as a comprehensive inventory of all duties, responsibilities and qualifications required of any employee assigned to this job. Nothing in this job description restricts management's right to assign duties and responsibilities to this job at any time.

M/F/D/V

Job Opportunities

Company: KPMG, LLP

Position: IT Audit Advisory Associate or Senior Associate

Location: Cincinnati, OH

About the Company :

Do you have a passion for solving complex business problems? KPMG's Advisory Services Practice focuses on fundamental business issues — managing risk, increasing revenues, controlling costs — that organizations, across various industries, should address in order to help them flourish. We help companies to identify and manage risks inherent in business processes and technology systems that support business objectives, and provide them with the information needed to help them meet their strategic and financial goals. Services are specialized to help clients mitigate risks across an overall risk spectrum. We are currently seeking an IT Audit Advisory Associate/Senior Associate to join us in our Cincinnati Ohio office.

Job Description:

As an IT Attestation professional, you will work with clients whose business processes and use of technology have external stakeholders. Our team delivers independent third party assessments that can provide comfort to clients and their business partners through seals and distributable reports such as reports such as SysTrust and SSAE16.

Specific Responsibilities:

- Plan and execute the day-to-day activities of IT audit engagements for a variety of clients including system development, package implementation and/or platform reviews
- Evaluate the design and effectiveness of technology controls throughout the business cycle
- Identify and communicate IT audit findings to senior management and clients
- Help identify performance improvement opportunities for assigned clients

Additional Responsibilities for Senior Associate:

- Supervise Associates and Interns on engagements
- Supervise and provide performance management for IT audit staff working on assigned engagements
- Serve as a liaison between clients and upper management

Job Requirements:

- Qualifications for both positions:
One year of experience in any of the following areas: internal or external IT audit, risk assessment, business process reengineering, Enterprise Resource Planning "ERP" packages such as SAP Oracle Financials, Hyperion and Cognos, Customer Relationship Management (CRM) packages such as Siebel, IT security, project management, IT outsourcing or off shoring, and/or IT strategy
- Bachelor's degree in an appropriate field from an accredited college/university
- Exceptional interpersonal skills with ability to gain the confidence and respect of senior level executives
- Willingness and ability to travel

Additional Qualifications for Senior Associate:

- Three years of advisory services experience in any of the following areas: internal or external IT audit, risk assessment, business process reengineering, ERP packages such as SAP, Oracle Financials, Hyperion and Cognos, CRM packages such as Siebel, IT security, project management, IT outsourcing or off shoring, and/or IT strategy
- Project or team lead experience
- Strong leadership and communication skills, technical knowledge, and the ability to write at a publication quality level in order to communicate findings and recommendations to the client's senior management team

Brett Ballinger, Director, Risk Consulting

bballinger@kpmg.com

Job Opportunities

Company: Fifth Third Bank

Position: Senior IT Risk Analyst (one openings)

Location: Cincinnati, OH

About the Company :

Fifth Third Bancorp is a diversified financial services company headquartered in Cincinnati, Ohio. As of December 31, 2014, the Company had \$139 billion in assets and operated 15 affiliates with 1,302 full-service Banking Centers, including 101 Bank Mart® locations, most open seven days a week, inside select grocery stores and 2,638 ATMs in Ohio, Kentucky, Indiana, Michigan, Illinois, Florida, Tennessee, West Virginia, Pennsylvania, Missouri, Georgia and North Carolina. Fifth Third operates four main businesses: Commercial Banking, Branch Banking, Consumer Lending, and Investment Advisors. Fifth Third also has a 22.8% interest in Vantiv Holding, LLC. Fifth Third is among the largest money managers in the Midwest and, as of December 31, 2014, had \$308 billion in assets under care, of which it managed \$27 billion for individuals, corporations and not-for-profit organizations. Investor information and press releases can be viewed at www.53.com. Fifth Third's common stock is traded on the NASDAQ® Global Select Market under the symbol "FITB."

Job Description:

This position is responsible for implementing information technology risk management strategies identified by the IT Risk Manager. In this role, the Senior IT Risk Analyst will be assigned overall responsibility for key areas and will have accountability for proper planning, prioritization and execution of supporting IT risk responsibilities. This position is responsible for hands-on execution of control/risk assessments and the development of control enhancement recommendations.

Specific Responsibilities:

- Support the IT Risk Manager in the execution of responsibilities to conduct risk assessments, implement self-assessment programs, perform technical research on risk topics, and other activities that support risk management goals for the IT Division. Some of the primary responsibilities include:
- Support the IT Risk Manager on the implementation of information technology risk management strategy and operating priorities.
- Support the integration of the IT Risk Management practices into key Information Technology and business areas.
- Build effective relationships with key individuals who own and support processes you are responsible for evaluating, including the appropriate line-of-business risk managers.
- Perform ongoing planning and prioritization of key projects and activities to ensure that resources are applied to the most critical areas. Communicate with the IT Risk Manager, as needed, to ensure proper prioritization and management of workload.
- Participate on projects and ensure that key IT risks are being adequately addressed. Coordinate with project managers to ensure that issues are identified, action plans are in place and that PLC requirements are being met.
- Perform risk assessments on key IT processes or assets, identify vulnerabilities and propose solutions to mitigate risk. Perform due diligence and risk assessments on IT service providers.
- Work with IT areas in developing an effective self-assessment process for proactively identifying risks associated with processes, applications and technical infrastructure components.
- Support compliance with applicable regulations, which include, but is not limited to the following: the FDIC Improvement Act, the Sarbanes-Oxley Act of 2002 and the Gramm-Leach-Bliley Act of 1999.
- Support the resolution of Internal Audit, regulatory, or Risk Management related issues that could impact the confidentiality, availability or integrity of data or processes.
- Create effective risk assessment documentation supporting work performed, including formal communication on risk assessment results. Be able to deliver effective presentations to management on summary of work performed and findings.

.....Continued from page 13

Job Requirements:

Two to four years of information technology experience required. Desired experience should include a foundation in IT security and controls. While experience in a number of IT disciplines may provide a solid framework for this position, hands-on results from performing IT risk assessments, information security consulting or IT audits are most beneficial. At least one relevant technical or professional certification, such as CISA or CISSP, is required.

Bachelor's degree required, preferably in computer science or information systems. Must possess excellent written and verbal communication skills, with a proven track record of interacting effectively with end-users and technology professionals. Able to work on multiple projects concurrently, manage time effectively and require minimal supervision in the execution of IT Risk Analyst responsibilities. Must possess strong analytical capabilities and have a desire to learn new things. Less than 10% travel required.

CSX Cybersecurity Fundamentals Study Guide

The *Cybersecurity Fundamentals Study Guide* is a comprehensive study aid that will help to prepare learners for the Cybersecurity Fundamentals Certificate exam. By passing the exam and agreeing to adhere to ISACA's Code of Ethics, candidates will earn the Cybersecurity Fundamentals Certificate, a knowledge-based certificate that was developed to address the growing demand for skilled cybersecurity professionals. The *Cybersecurity Fundamentals Study Guide* covers key areas that will be tested on the exam, including: cybersecurity concepts, security architecture principles, incident response, security of networks, systems, applications, and data, and security implications of evolving technology.

ISACA Members and Non-Members can purchase a hard copy or download the eBook at the following prices:

Members- Downloadable Book Format for US \$45.00 each [here](#)

Non-members—[Join ISACA today](#) to get your \$35.00 Book, or [purchase the book](#) for US \$55.00 each.

Resources

How to Earn and Report CPE

Did you know that ISACA certified members can earn up to 72 FREE CPEs per year!

ISACA offers opportunities to earn CPE through participation in a variety of programs and events. Several of these choices are listed below with specific instructions.

Webinars and Virtual Conferences: Up to 36 free CPEs per year. CPE quizzes are for members only.

Journal quizzes: Earn one CPE for each of six [journals](#) per year. 6 FREE CPEs per year

Serving as an ISACA Volunteer: Participate on an ISACA or ITGI board, committee, task force or as an officer of an ISACA chapter, and gain one CPE credit (up to 20 per year) for each hour of active participation. (Consult Qualifying Educational Activities for CISA, CISM, CGEIT and CRISC members.) 20 FREE CPEs per year

Mentoring: Earn one CPE for each hour of mentoring efforts directly related to coaching, reviewing or assisting an individual with CISA/CISM/CGEIT/CRISC exam preparation or providing career guidance through the credentialing process. 10 FREE CPEs per year

TOTAL Possible FREE CPEs for ISACA Certified Members: 72 FREE CPEs per year

How to Report CPEs in your Profile

CPEs are reported annually during the renewal process. CPEs earned in the current year may be entered in your profile once the next year's renewal period opens. Reporting of CPEs can be done online or by submitting the information on the annual renewal invoice.

To update CPE hours through the ISACA website, log on using your personalized log in credentials and follow the steps below.

Click on the **MY ISACA** tab at the top of the page

Click on the **MY CERTIFICATIONS** tab

Click on the **EDIT MY CPE Hours** link

The CPE reporting is located on the My Demographic, Certification CPE and Other Information tab. Scroll to the bottom of the page to view and edit the appropriate CPE fields. If you do not see a CPE section, CPE hours are not being accepted or you are not required to report CPEs yet.

Enter CPE hours – then click SAVE at the bottom of the page

For more information about the specific Continuing Professional Education (CPE) requirements for your certification, please see the following [link](#).

Editor's Corner

Dear Cincinnati ISACA member,

We appreciate the feedback received after the last newsletter. As your editor, I am current working to update our newsletter to make useful changes for all of our members. We appreciate your responses and always welcome ideas to improve our process.

Submissions, feedback and questions can all be directed to Kyle Schutte (kschutte@clarkschaefer.com).

Thank You!

Kyle Schutte, CISA
VP of Communications
