Welcome...

Appreciation for Member Appreciation! ... and an Important Presentation on Cyber Security Frameworks

INSIDE THIS ISSUE

Welcome Message....	1
Monthly Meeting.....	2
Fall Seminar	3
Job Opportunities.....	5
Resources.....	13
Editor's Corner.....	15
About our Chapter....	16

Greetings Fellow Greater Cincinnati ISACA Members,

Thanks to all those who turned out for our September meeting. We had 60 people for the dinner and presentation by Rob Clyde, ISACA International Board Member. His lively style and videos were engaging for sure and his optimistic approach was much appreciated as we work to protect our organizations from the many threats he discussed.

Data security's status as a mainstream topic continues to increase. This month there are many stories on national concerns for protecting electronic voting and Yahoo's massive data breach. Our skills are increasingly needed for articulating different organizational security approaches and defensive postures.

This month we look forward to a presentation on "Leveraging Cyber Security Frameworks." Given the many perspectives on addressing Cyber Security, it will be nice to spend time considering the different frameworks and the pros and cons of each. This is a great topic for helping us be conversant in the rapidly expanding area. Many thanks to Max Aulakh, President of Mafazo Digital Solutions, for offering to present on this topic.

See you on October 4 at the Original Montgomery Inn!

Robert Ramsay
Greater Cincinnati ISACA Chapter President

Monthly Meeting

Leveraging Cyber Security Frameworks

Date: October 4, 2016

Location: Montgomery Inn, Montgomery

Time: Networking 5:30; Presentation 6pm; Dinner 7pm.

Topic: Leveraging Cyber Security Frameworks

Speaker: Max Aulakh, President of Mafazo Digital Solutions

Overview:

Safely Embracing the Cyber Future

Leveraging Cyber Security Frameworks: Due to the nature of our industry, security will always remain in constant state of flux. We know this yet we struggle to keep up with not only technology but also multiple, redundant and purpose built security frameworks and legislative standards. These standards serve as a great starting point but often leave us confused and disordered creating more work for the practitioner on mappings, language semantics and adding more work leading to SharePoint sites & spreadsheets chaos across the organization. In this presentation, we will take a deep dive in to multiple frameworks – how and when to organize them and leverage them for the purpose of cyber security. Attendees will learn: Cyber security & compliance frameworks, Purpose built versus general frameworks, Adapting & changing frameworks, Where to start & how to plan, equip & train internal cyber security force

Speaker Bio:

Max Aulakh, President of Mafazo Digital Solutions

Max is a DoD built cyber security entrepreneur that has been recognized by Dell Founder 50 Entrepreneur Program as an “innovative entrepreneur”. Max’s work in information security field has resulted in proven track record of success in leading GRC programs for global enterprises. Max emigrated from India to the United States with his family as a teenager. After attaining US citizenship at the age of 18 he joined the Air Force, where he worked across Turkey, Iraq and Afghanistan as a Security Specialist, building small satellite-linked networks on the fly in remote territory, programming and rekeying radio equipment for secure communications.

Fall Seminar

Auditing CyberSecurity Governance and Controls

Date/Time:

Two days: **Thursday, November 17, and Friday, November 18, 2016**

8:30am – 4:30pm

Location:

Miami University, Voice of America Learning Center
7847 VOA Park Dr, West Chester Township, OH 45069
Phone: (513) 895-8862

Course Focus:

Many important CyberSpace controls are related to the protection of valuable information assets and increasingly demanding regulatory compliance requirements. In this highly practical workshop, you will cover the essential background information, resources, tools, and techniques necessary to plan and launch a wide range of hard-hitting, cost-effective CyberSecurity audits that should be performed by internal and external auditors, Information Security professionals, and IT staff. Attendees will receive a variety of invaluable checklists, matrices, and other worksheet tools. Additional Information, including discount codes for ISACA members, registration and a detailed agenda for the conference, can be found below.

Course Focus:

Price incentives have been applied, specifically for our members, as a thank you for being a valued part of our chapter! Non-members can JOIN ISACA prior to enrolling to receive the discounted price. The savings will pay for your membership!

\$300 - Virtual interactive seminar for ISACA members

\$400 - On-location seminar for ISACA members

\$500 - On-location seminar for non-members

Registration Options:

For enrollment, transfer, or cancellation requests, please email Robert Meyer (Robert.Meyer@cinfin.com) or Brandon Carey (branden.carey@53.com).

Job Opportunities

Company: The Cincinnati Insurance Company

Position: Senior IT Internal Auditor

Location: Fairfield, OH

About the Company :

The Cincinnati Insurance Company, a subsidiary of Cincinnati Financial Corporation, stands among the nation's top 25 property casualty insurer groups, based on net written premiums. Our commitment to the independent agency system began in 1950 and is our company's core strength and competitive advantage. We excel by offering agents and policyholders a local presence, unparalleled claims service, loss control consultation services, work-saving technology initiatives, and competitive products, rates and compensation. Selected associates receive a comprehensive salary and benefits package, including a matching 401(k). Equal Opportunity Employer.

Job Description:

Our Internal Audit department is seeking a talented, experienced and motivated senior IT internal auditor to exert meaningful influence over our IT risk assessment and auditing processes. The selected professional's audit scope will include our large, centralized IT department, which manages a complex technology environment and is subject to a variety of federal and state level regulations. Our Internal Audit department reports through the Internal Audit Officer directly to the CEO (administratively) and the Audit Committee of the Board of Directors (functionally).

Little to no travel is required.

Specific Responsibilities:

- researching and understanding our company's IT-related processes, data and systems
- developing and preparing IT audit plans
- conducting IT audits, including Sarbanes-Oxley general IT controls testing
- making innovative recommendations for improving efficiency, effectiveness and internal control
- preparing and presenting reports to management
- using data mining and interrogation tools and techniques
- performing special projects
- participating in overall Internal Audit risk assessment and planning
- building productive working relationships with peers, reviewers and management
- interacting with and assisting our external auditors from Deloitte & Touche LLP
- working with other team members to develop best practices and a base of knowledge for future use
- pursuing and maintaining one or more of a list of selected professional designations
- participating in professional organizations and opportunities to enhance personal and professional growth
- establishing mentoring relationships within Internal Audit and throughout the company
- staying current with emerging issues affecting the IT auditing profession
- seeking opportunities to improve technical and management skills through continuing education, seminars, etc.

Job Requirements:

Experience that includes at least two years with one or more of the following is required:

- IT auditing for a professional services (ideally Big 4) firm
 - performing IT control audits, including application and infrastructure, information security, and change management
 - conducting and supporting external audits of consolidated financial statements in accordance with AICPA and PCAOB auditing standards
 - performing detailed security reviews of various IT environments, including Oracle, DB2, SQL, PeopleSoft, SAP, Unix, and Windows Active Directory
 - performing data analytics utilizing ACL, MS Access, Excel (with pivot tables, vlookups, hlookups, and filters) and/or SAS
-

Job Opportunities

Job Requirements (Continued).

- using programming languages such as .Net, Java, C# and database management systems such as MS SQL, DB2, and Oracle.
- testing the design/implementation and operating effectiveness of internal controls
- performing SSAE16 (SOC1 or SOC2) planning, testing and reporting

To be considered, candidates must also have the following qualifications:

- bachelor's degree in information systems, computer science, information technology, data analytics, accounting, insurance or a related field that promotes analytical thinking or specific knowledge of our company's business
- undergraduate GPA of 3.0 or better
- commitment to integrity and ethical behavior
- excellent oral and written communication skills
- professional, business-like demeanor
- strong interpersonal and relationship building skills
- ability to work both independently and as part of a team with professionals at all levels
- ability to prioritize tasks, work independently on multiple assignments and manage ambiguity
- ability to think critically, objectively, and analytically with an appropriate level of skepticism
- ability to determine control objectives, identify control procedures that address those objectives, and assess the adequacy of those procedures
- ability to manage project work to meet budgets and agreed timelines
- flexibility to work extended hours when necessary
- working familiarity with various application systems (such as PeopleSoft and SAP), operating systems (such as Windows, AIX and z/OS), network management technologies (such as Active Directory and LDAP), and database management systems (such as MS SQL, DB2, and Oracle)
- at least a basic knowledge of internal control frameworks such as COBIT and COSO

Candidates may be further differentiated based on the following:

- master's degree in a technology or business-related field
- extraordinarily relevant prior work experience
- pertinent professional designations (such as CISA, CISSP, PMP, CPA, CIA, or CMA)
- strong professional references
- Experience with TeamMate and data mining/analysis tools, including ACL or SAS

Job Opportunities

Company: Clark Schaefer Consulting

Position: IT Audit Consultant

Location: Cincinnati and Columbus, OH

About the Company :

Clark Schaefer Consulting is an established professional services firm associated with Clark, Schaefer, Hackett CPAs, one of the top public accounting firms in the region. As a firm, we have been performing consulting services within the Cincinnati business community and surrounding area for 10 plus years and prior to that time, as part of our CPA firm affiliate for 75 years. Due to increased demand from our clients and the outlook for our services in 2016, we are currently seeking information systems professionals as consultants for full-time, salaried positions at our Cincinnati and Columbus locations.

By design, we serve a diverse set of regional clients ranging from the Fortune 1000 to privately held corporations. As a regionally based firm, we believe we offer an ideal work-life balance for those who enjoy client service work, but want to avoid the extensive travel and time requirements of the national firms. If you are interested in having diversity in your work experience; expanding your personal knowledge base; and being part of assisting the top companies in your community as they improve their operations, this is a great opportunity for you.

Job Description:

Based upon skills and experience, the successful candidates will join a team of professionals performing a range of IT audit, internal audit, and other related information system services. These services could include IT audits, process improvement, policy/procedure development, disaster recovery reviews, network architecture assessments, IT risk assessments, application control reviews, systems implementation assistance, and a wide variety of other technology related services. For more details on specific potential projects, please visit our website for a listing of the services we typically perform which might fit your background and skills.

Primary Responsibilities:

- Provide IT auditing and other technology related services to fulfill individual engagement requirements.
- Assist with the development of project plans, methodologies and client proposals as needed.
- Maintain a consistent level of chargeable hours to fulfill annual billable expectations.
- Travel to client locations as required throughout the year.
- Maintain a commitment to continuing education and professional development.

Education & Experience:

- Bachelor's degree in technology or related field.
- Relevant IT audit or information technology experience.
- Professional certifications such as CISA, CISM, CIA, CISSP are a plus.
- Excellent written and verbal communication skills.
- Ideal candidate would have 1-4 years of experience.

To Apply:

Please e-mail your resume, cover letter and salary history to recruiting@clarkschaefer.com . For more information concerning our Firm and services, please visit www.clarkschaefer.com.

Job Opportunities

Company: Fifth Third Bank

Position: IT Audit Staff or Senior

Location: Cincinnati, OH

About the Company :

Fifth Third Bancorp is a diversified financial services company headquartered in Cincinnati, Ohio. As of December 31, 2014, the Company had \$139 billion in assets and operated 15 affiliates with 1,302 full-service Banking Centers, including 101 Bank Mart® locations, most open seven days a week, inside select grocery stores and 2,638 ATMs. Fifth Third operates four main businesses: Commercial Banking, Branch Banking, Consumer Lending, and Investment Advisors.

Job Description:

Conducts IT governance, infrastructure & support, integrated business process and application audits for various lines of business/functional areas within the Bancorp. Primary responsibilities include performing IT audit activities in the planning, fieldwork, reporting and wrap-up phases in accordance with established standards. Seniors will be responsible for supervision of assigned staff personnel (typically leads 1-2 staff per audit) and ensuring that the execution of all audit phases is conducted in accordance with established standards.

Specific Responsibilities:

- Ensure execution of all audit activities in the planning, testing, reporting and wrap-up phases are in compliance with the Audit Division's methodology /standards and within the timeframes to support department metrics
- Challenge, validate and execute test strategies to determine the effectiveness of internal controls and compliance with regulations; incorporating appropriate tools, techniques and technology.
- Establish, foster and maintain working relationships with peers and supervisory management within the business line and cross-functional lines to support an effective workflow, continuous communication and value to customer.
- Participate in departmental processes and initiatives that promote team effectiveness, employee engagement and resource development.
- Attend Bancorp sponsored and other training to build industry knowledge and technical capabilities.

Additional Responsibilities for Senior Auditor:

- Develop audit scope and objectives, risk and control assessments, work programs, and other deliverables of audit work.
- Delegate responsibilities to audit staff members, and review audit work papers providing coaching feedback on work prepared by staff auditors.
- Communicate information to management through presentations and internal audit reports.

Job Requirements:

- Bachelors degree required; Computer Science or Management Information Systems preferred. Other related academic majors (e.g., Accounting or Audit) should be accompanied by relevant experience in IT or IT Audit.
- Encouraged to pursue CISA certification and/or related professional certifications such as CISSP, CPA or CIA.
- IT or Financial services industry experience and/or public accounting firm experience desirable.
- Proficient with MS-Windows and other related PC applications. Possess the desire and ability to learn mainframe and distributed applications as well as automated data analysis tools and Techniques
- Strong written and verbal communication skills required.
- Senior candidates will demonstrate coaching, leadership and project management skills.

Job Opportunities

Company: Hillenbrand, Inc.

Position: IT Internal Auditor III - 1500000131

Location: Batesville, IN

Job Description:

The IT Internal Auditor will work closely with the business unit management, finance and IT leadership, external audit firms and, as needed, co-sourcing firms. The IT Internal Auditor must be able to execute the assigned audit areas to timely and successful completion.

Essential Duties and Responsibilities include the following:

- Conduct more complex audit activities to analyze and evaluate the performance of the organization's financial, operational, managerial, and IT processes and systems to identify risks, areas for improvement, and to ensure that the organization complies with all relevant regulations, laws, and standards.
- Conduct routine and complex audit projects independently; plan, organize, and schedule own workload so that audit activities are completed accurately and on time.
- Collect, examine, analyze, and verify information about the organization's systems and processes by reviewing manuals, policies, reports, financial statements, and other written materials, and by interviewing organizational members where required.
- Develop recommendations for changes to processes and systems that will minimize risk, improve performance and productivity and ensure that the organization complies with all relevant regulations, laws, and standards.
- Prepare audit reports that accurately document the audit process and its findings.
- Partner with and build strong working relationships with business line management
- Participate in the risk assessment process;
- Mentor and train junior auditors and/or business line guest auditors;
- Participate in development of internal audit policy and procedure documentation;
- Other duties may be assigned.

Supervisory Responsibilities

This position does not have any direct supervisory responsibilities.

Education

Bachelor's degree (B.A./B.S.) or equivalent from a college or university in Accounting, Finance, IT or MIS; and a minimum of 5 years IT audit and/or IT experience in a corporate environment, or with a Big 4 firm; or equivalent combination of education and experience with an emphasis in IT audit.

A professional security, audit, or control-related professional certification such as CISA, CIA, or CISSP is preferred.

Skills/Experience

- Basic Microsoft Office skills required
- Sarbanes Oxley compliance experience required
- Experience interacting with all levels of management required
- German or Chinese Mandarin language skills preferred
- Public accounting experience preferred
- Manufacturing industry experience preferred
- Basic experience in the assessment of internal controls and communicating findings and recommendations to others clearly and accurately in non-technical terms preferred

... Continued from page 10

Skills/Experience (Continued)

- Intermediate understanding of IT processes and technology, with demonstrated proficiency in one or more of these applications (JD Edwards, SAP, Hyperion) required
- Expert understanding of controls related to information security, program/project management, and/or infrastructure services (operating systems, databases, and network) required

Travel

Employee must be able to travel 20% of the time.

Physical Demands

To perform this job successfully, the physical demands listed are representative of those that must be met by an employee. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

While performing the duties of this job, the employee is regularly required to sit, stand, walk, use hands to handle and feel, reach with hands and arms, talk and hear. The employee may occasionally be required to crouch. The employee may occasionally lift items as heavy as 25lbs. Specific vision abilities may include the employee's ability to see near and far distances.

DISCLAIMER:

The above information on this job description has been designed to indicate the general nature and level of work performed by the employee within this classification. It is not designed to contain or be interpreted as a comprehensive inventory of all duties, responsibilities and qualifications required of any employee assigned to this job. Nothing in this job description restricts management's right to assign duties and responsibilities to this job at any time.

M/F/D/V

Job Opportunities

Company: KPMG, LLP

Position: IT Audit Advisory Associate or Senior Associate

Location: Cincinnati, OH

About the Company :

Do you have a passion for solving complex business problems? KPMG's Advisory Services Practice focuses on fundamental business issues — managing risk, increasing revenues, controlling costs that organizations, across various industries, should address in order to help them flourish. We help companies to identify and manage risks inherent in business processes and technology systems that support business objectives, and provide them with the information needed to help them meet their strategic and financial goals. Services are specialized to help clients mitigate risks across an overall risk spectrum. We are currently seeking an IT Audit Advisory Associate/Senior Associate to join us in our Cincinnati Ohio office.

Job Description:

As an IT Attestation professional, you will work with clients whose business processes and use of technology have external stakeholders. Our team delivers independent third party assessments that can provide comfort to clients and their business partners through seals and distributable reports such as reports such as SysTrust and SSAE16.

Specific Responsibilities:

- Plan and execute the day-to-day activities of IT audit engagements for a variety of clients including system development, package implementation and/or platform reviews
- Evaluate the design and effectiveness of technology controls throughout the business cycle
- Identify and communicate IT audit findings to senior management and clients
- Help identify performance improvement opportunities for assigned clients

Additional Responsibilities for Senior Associate:

- Supervise Associates and Interns on engagements
- Supervise and provide performance management for IT audit staff working on assigned engagements
- Serve as a liaison between clients and upper management

Job Requirements:

- Qualifications for both positions:
One year of experience in any of the following areas: internal or external IT audit, risk assessment, business process reengineering, Enterprise Resource Planning "ERP" packages such as SAP Oracle Financials, Hyperion and Cognos, Customer Relationship Management (CRM) packages such as Siebel, IT security, project management, IT outsourcing or off shoring, and/or IT strategy
- Bachelor's degree in an appropriate field from an accredited college/university
- Exceptional interpersonal skills with ability to gain the confidence and respect of senior level executives
- Willingness and ability to travel

bballinger@kpmg.com

Job Opportunities

Company: Fifth Third Bank

Position: Senior IT Risk Analyst (one openings)

Location: Cincinnati, OH

About the Company :

Fifth Third Bancorp is a diversified financial services company headquartered in Cincinnati, Ohio. As of December 31, 2014, the Company had \$139 billion in assets and operated 15 affiliates with 1,302 full-service Banking Centers, including 101 Bank Mart® locations, most open seven days a week, inside select grocery stores and 2,638 ATMs in Ohio, Kentucky, Indiana, Michigan, Illinois, Florida, Tennessee, West Virginia, Pennsylvania, Missouri, Georgia and North Carolina. Fifth Third operates four main businesses: Commercial Banking, Branch Banking, Consumer Lending, and Investment Advisors. Fifth Third also has a 22.8% interest in Vantiv Holding, LLC. Fifth Third is among the largest money managers in the Midwest and, as of December 31, 2014, had \$308 billion in assets under care, of which it managed \$27 billion for individuals, corporations and not-for-profit organizations. Investor information and press releases can be viewed at www.53.com. Fifth Third's common stock is traded on the NASDAQ® Global Select Market under the symbol "FITB."

Job Description:

This position is responsible for implementing information technology risk management strategies identified by the IT Risk Manager. In this role, the Senior IT Risk Analyst will be assigned overall responsibility for key areas and will have accountability for proper planning, prioritization and execution of supporting IT risk responsibilities. This position is responsible for hands-on execution of control/risk assessments and the development of control enhancement recommendations.

Specific Responsibilities:

- Support the IT Risk Manager in the execution of responsibilities to conduct risk assessments, implement self-assessment programs, perform technical research on risk topics, and other activities that support risk management goals for the IT Division. Some of the primary responsibilities include:
 - Support the IT Risk Manager on the implementation of information technology risk management strategy and operating priorities.
 - Support the integration of the IT Risk Management practices into key Information Technology and business areas.
 - Build effective relationships with key individuals who own and support processes you are responsible for evaluating, including the appropriate line-of-business risk managers.
 - Perform ongoing planning and prioritization of key projects and activities to ensure that resources are applied to the most critical areas. Communicate with the IT Risk Manager, as needed, to ensure proper prioritization and management of workload.
 - Participate on projects and ensure that key IT risks are being adequately addressed. Coordinate with project managers to ensure that issues are identified, action plans are in place and that PLC requirements are being met.
 - Perform risk assessments on key IT processes or assets, identify vulnerabilities and propose solutions to mitigate risk. Perform due diligence and risk assessments on IT service providers.
 - Work with IT areas in developing an effective self-assessment process for proactively identifying risks associated with processes, applications and technical infrastructure components.
 - Support compliance with applicable regulations, which include, but is not limited to the following: the FDIC Improvement Act, the Sarbanes-Oxley Act of 2002 and the Gramm-Leach-Bliley Act of 1999.
 - Support the resolution of Internal Audit, regulatory, or Risk Management related issues that could impact the confidentiality, availability or integrity of data or processes.
 - Create effective risk assessment documentation supporting work performed, including formal communication on risk assessment results. Be able to deliver effective presentations to management on summary of work performed and findings.
-

Job Opportunities

.....Continued from page 13

Job Requirements:

Two to four years of information technology experience required. Desired experience should include a foundation in IT security and controls. While experience in a number of IT disciplines may provide a solid framework for this position, hands-on results from performing IT risk assessments, information security consulting or IT audits are most beneficial. At least one relevant technical or professional certification, such as CISA or CISSP, is required.

Bachelor's degree required, preferably in computer science or information systems. Must possess excellent written and verbal communication skills, with a proven track record of interacting effectively with end-users and technology professionals. Able to work on multiple projects concurrently, manage time effectively and require minimal supervision in the execution of IT Risk Analyst responsibilities. Must possess strong analytical capabilities and have a desire to learn new things. Less than 10% travel required.

CGEIT Review Manual 7th Edition

ISACA

The *CGEIT® Review Manual 7th Edition* is designed to help individuals prepare for the CGEIT exam and understand the responsibilities of those who implement or manage the governance of enterprise IT (GEIT) or have significant advisory or assurance responsibilities in regards to GEIT. It is a detailed reference guide that has been developed and reviewed by subject matter experts actively involved in GEIT worldwide.

The *CGEIT® Review Manual 7th Edition* offers any easy-to-use format, organized to assist candidates in understanding essential concepts and studying for the exam following the [CGEIT job practice areas](#). The manual also features commonly used terms and definitions, self-assessment questions and answers and resources for further study. It can be used alone or in conjunction with other CGEIT exam prep publications or review courses. The manual can also be used as a desk reference for GEIT professionals.

ISACA Members and Non-Members can purchase a hard copy or download the eBook at the following prices:

Members- Downloadable Book Format for US \$85.00 each

Non-members—[Join ISACA today](#) to get your \$85.00 Book, or purchase the book for US \$115.00 each.

How to Earn and Report CPE

Did you know that ISACA certified members can earn up to 72 FREE CPEs per year!

ISACA offers opportunities to earn CPE through participation in a variety of programs and events. Several of these choices are listed below with specific instructions.

Webinars and Virtual Conferences: Up to 36 free CPEs per year. CPE quizzes are for members only.

Journal quizzes: Earn one CPE for each of six [journals](#) per year. 6 FREE CPEs per year

Serving as an ISACA Volunteer: Participate on an ISACA or ITGI board, committee, task force or as an officer of an ISACA chapter, and gain one CPE credit (up to 20 per year) for each hour of active participation. (Consult Qualifying Educational Activities for CISA, CISM, CGEIT and CRISC members.) 20 FREE CPEs per year

Mentoring: Earn one CPE for each hour of mentoring efforts directly related to coaching, reviewing or assisting an individual with CISA/CISM/CGEIT/CRISC exam preparation or providing career guidance through the credentialing process. 10 FREE CPEs per year

TOTAL Possible FREE CPEs for ISACA Certified Members: 72 FREE CPEs per year

How to Report CPEs in your Profile

CPEs are reported annually during the renewal process. CPEs earned in the current year may be entered in your profile once the next year's renewal period opens. Reporting of CPEs can be done online or by submitting the information on the annual renewal invoice.

To update CPE hours through the ISACA website, log on using your personalized log in credentials and follow the steps below.

Click on the **MY ISACA** tab at the top of the page

Click on the **MY CERTIFICATIONS** tab

Click on the **EDIT MY CPE Hours** link

The CPE reporting is located on the My Demographic, Certification CPE and Other Information tab. Scroll to the bottom of the page to view and edit the appropriate CPE fields. If you do not see a CPE section, CPE hours are not being accepted or you are not required to report CPEs yet.

Enter CPE hours – then click **SAVE** at the bottom of the page

For more information about the specific Continuing Professional Education (CPE) requirements for your certification, please see the following [link](#).

Editor's Corner

Dear Cincinnati ISACA member,

We appreciate your continued support and participation in our local chapter. As we look to better serve your needs in terms of continuing education and professional development, any improvements that can be made in terms of communication and distributions of information are always welcome.

For those of us who are looking to obtain CPE before the end of the calendar year, the fall seminar is just around the corner with several convenient options.

Submissions, feedback and questions can all be directed to Kyle Schutte (kschutte.ISACA@gmail.com).

Thank You!

Kyle Schutte, CISA
VP of Communications

About Our Chapter

Founded in 1973, the Greater Cincinnati ISACA Chapter is a not-for-profit professional organization serving IT Audit, Risk, Security, and Governance professionals in the Greater Cincinnati market. The chapter consists of over 450 professionals that represent a diverse mix of public, private, and not-for-profit business sectors at all levels within those industries. Members of the Greater Cincinnati ISACA Chapter have the opportunity to earn 36 CPE hours annually through various events and seminars. The greatest asset to the Greater Cincinnati ISACA Chapter is its membership community.

Purpose

To promote the education of individuals for the improvement and development of their capabilities relating to IT Audit, Security, Risk, and Governance in the field of Information Technology audit and control.
