

“  
**Join  
ISACA!**”

Start now to develop the professional contacts, leadership skills and visibility needed to establish a professional career. As a student member of the association, you will join a network of thousands of professionals working in industry, academia and government.

## Becoming an **ISACA Student Member**

Student membership in ISACA is open to students currently enrolled full-time as undergraduates or graduates. ISACA student member dues are only US \$25 annually, plus local chapter dues. Please check the student application posted at [www.isaca.org/student](http://www.isaca.org/student) for the chapter dues amount for your local area. Many chapters waive local dues for students.

Become an ISACA member today! Just complete the application at [www.isaca.org/student](http://www.isaca.org/student) and return it with payment to ISACA International Headquarters. The registration form only takes a few minutes to complete. Your new membership will give you access to all of the research, tools and contacts you need to establish your professional identity.

## About ISACA®

ISACA is a pace-setting global organization for IT professionals focusing on information governance, security and audit. IT has become essential in managing the transactions, information and knowledge necessary to initiate and sustain business. Today's organizations rely upon individuals who know how to secure systems and evaluate and report on the adequacy of system controls, security practices, efficiency and effectiveness to assure that data integrity is protected and that systems comply with applicable policies, standards, laws and regulations. ISACA's 50,000+ members address these needs as IS auditors, consultants, educators, IS security professionals, regulators, chief information officers and internal auditors, to name a few. Some are new to the field and others are seasoned professionals, and they work all over the world in nearly all industry categories. This diversity enables members to learn from each other and exchange viewpoints on a variety of professional topics.

One of ISACA's strengths is its chapter network. ISACA has 170 chapters worldwide, and those chapters provide education, resource sharing, advocacy, professional networking and a host of other benefits on a local level.

## What's in It for Me?

ISACA gives you a broad range of tools to help you learn, make connections and establish your professional identity. Benefits include:

### Leadership and Networking Opportunities

- Your local chapter ([www.isaca.org/chapters](http://www.isaca.org/chapters)) is a great place for you to gain professional knowledge, learn about opportunities in your local area, and get to know and network with members in the audit, security and governance professions. Get to know your future employers and pursue leadership opportunities. Make your résumé stand out from those who do not have ISACA membership and who have not held leadership roles in a professional association.

## Benefits of Student Membership

### Access to Members-only Material

- Priority access to ISACA's Online Career Centre ([www.isaca.org/careercentre](http://www.isaca.org/careercentre)), where you can post your résumé online and request e-mail notification of new jobs
