**ISACA Journal Production Requirements**

- **Media format** Print-optimized PDF file
- **Layout programs** QuarkXPress or InDesign files preferred. If applicable, convert fonts used in an illustration to paths or outlines.
- **Images/graphics** Freehand, Illustrator or Photoshop files, .eps or .tif only. No JPEG or BMP files. Submit as CMYK files, 300 dpi. Scan grayscale images at 300 dpi. Scan B&W line art images at 1,200 dpi.
- **Fonts** Adobe Type 1 only plus screen font. No TruType or Adobe. Multiple masters.
- **Hard-copy proofs** All color ads must be accompanied by a color matchprint. Print at 100% of original size. Proofs should match the supplied electronic files. Color proofs from your in-house printer are sufficient, as long as you note on the proof “Color will be accepted as printed.”
- **File submission** Supplied media must be labeled with the advertiser’s name and contact information. Place the required files only on the shipping media, and supply an accurate directory list of contents. All live, continuous-tone subjects should be in CMYK color space. PMS colors need to be converted to CMYK for inclusion. The resolution of all supplied live images should be 300 dpi. Continuous tone images may be scaled up to 115%.

**Please refer to your Naylor insertion order for FTP website information.**

**Advertising Policy**

Advertising of like seminars/conferences by advertisers who are not formally affiliated with ISACA will be accepted if their conference/seminar is not being held in the same state, province, region or country as one that is sponsored by ISACA either two months prior to or one month after an ISACA multiday event. Advertisements for conferences and seminars held within 30 days of ISACA conferences are automatically excluded. (Does not apply to ISACA Enterprise Directory)

All questions about acceptance should be directed to the ISACA advertising team. Advertisements are subject to final approval by the publisher. Claims made about products or services must be valid. It is not necessary that claims be validated in the ad copy, but claims and facts need to be substantiated if requested by ISACA.

Advertisements should not attempt to invoke humor or make references to situations, current events or puns that may be misunderstood or considered offensive in any culture. Advertisements must appreciate that international associations and businesses are sensitive to the nuances of world views.

For electronic advertising that directs the user to a URL, the landing page must include a link to the advertiser’s privacy policy and, if the advertiser is collecting personally identifiable information (PII) on the page, the page must be secure (https://).

**Embedded tracking URLs may be used for email and website advertising. The tracking URLs may only be used to track activity such as impressions and clicks. No (PII) may be collected. Java script code may not be added. URLs are subject to approval by ISACA.**

In addition to the above requirements, all direct competitor advertising, e.g., ISACA-related certification training and review manual ads, is prohibited in online advertising and sponsor copy. Please note: Such competitor advertising is accepted for print advertising in the *Journal* and the ISACA Enterprise Directory.

**Contract Copy and Regulations**

1. Rates are based on the number of insertions within a 12-month period, dating from the first insertion.
2. Cancellation of space reservations will result in a rate adjustment based on past and subsequent insertions to reflect actual space used at the earned frequency or volume rate. Advertisers will be rebated or credited if they use sufficient additional space within a 12-month period from the date of the first insertion to earn a lower rate than the rate at which they are billed. If an advertiser does not pay for an insertion per the contractual agreement, the publisher reserves the right to hold the advertiser and/or agency jointly and severally liable for such monies as are due and payable to the publisher. Furthermore, if an advertiser becomes delinquent, the publisher reserves the right to cancel the contract and open the space contracted by the advertiser up for sale to another party.
3. Rates are in US dollars and are subject to change. Normally, at least three months’ notice will be given prior to any rate changes, and contracts may be cancelled at the time the change in rate becomes effective without incurring a short-rate adjustment, providing that the contract rate has been earned up to the date of publication.
4. Each page or fractional page counts as one insertion. A spread is considered to be two insertions.
5. A 15% discount is available to qualified ad agencies on posted rates.
6. All advertisements are subject to approval of the publisher.
