In-Person Review Courses—Offered by ISACA accredited training partners and chapters in numerous countries.

Exam Preparation Community—A place for CRISC exam registrants to collaborate and study with other registrants.
SHARPEN YOUR INSIGHTS WITH CRISC EXAM REVIEW MATERIALS

To help optimize your preparation for the CRISC certification exam, ISACA offers several study solutions which can be accessed here. In English, these include:

**CRISC Review Manual, 7th Edition**
This manual offers an easy-to-navigate format. Each of the book’s chapters has been divided into two sections for focused study. Section one of each chapter contains: Definitions and objectives for the four areas; Task and knowledge statements; Self-assessment questions, answers, and explanations; Suggested resources for further study. Section two of each chapter consists of reference material and content that support the knowledge statements. The material enhances CRISC candidates’ knowledge and understanding when preparing for the CRISC certification exam.

**CRISC Review Questions, Answers and Explanations, 6th Edition**
This updated edition has been expanded and updated to include even more practice questions. This study aid is designed to familiarize candidates with the question types and topics featured in the CRISC exam with the use of 600 questions. Many questions have been revised or completely rewritten to be more representative of the current CRISC exam question format, and/or to provide further clarity or explanation of the correct answer. These questions are not actual exam items but are intended to provide CRISC candidates with an understanding of the type and structure of questions and content that have previously appeared on the exam.

**CRISC Online Review Course**
Prepare to obtain the Certified in Risk and Information Systems Control® (CRISC) certification and be recognized among the world’s most-qualified risk professionals. The CRISC Online Review Course provides online, on-demand instruction and is ideal for preparing you for the CRISC certification exam. The course covers all four of the CRISC domains, and each section corresponds directly to the CRISC job practice. It uses proven instructional design techniques, incorporating video, interactive eLearning modules, downloadable, interactive workbooks, downloadable job aids, case study activities and pre- and post-course assessments.

**Virtual or in-Person CRISC Exam Review Courses**
Provides individual and team training. These courses are offered by ISACA global, chapters and accredited training partners across the globe. Courses may include instructor-led breakdowns of the exam’s five domains, discussion activities and a mock exam.
Passing the Exam is the First Step

The hard part is over. You passed the CRISC certification exam, now you just need to apply for certification with the required experience to complete the process. Maintain your hard-earned CRISC certification and be a part of the vibrant ISACA professional community by:

- Participating in [continuing professional education](#) (CPE) programs.
- Adhering to a [professional code of ethics](#).
- Taking advantage of member savings on CPEs and certification renewals by [joining ISACA](#).

**Put your digital badge to use!**

- Display your abilities securely online
- Share your real-time, verifiable achievement with peers and prospective employers
- Reflect the effort and process to earn your CRISC
- Export for display on other platforms and social media

ISACA’s digital badges are managed by Credly, an enterprise-class badging platform, providing security and protection to your credentials.
Maintain Your CRISC Certification

Continuing professional education (CPE) is crucial in order to remain current in your skills and expertise and to get ahead in your career. The principal aspect of maintaining your CRISC involves compliance with the CRISC CPE Policy by earning a minimum of 20 CPEs annually and a total of 120 CPEs over a 3-year period. Note: payment of annual maintenance fee ($45 for members, $85 for non-members) is required to maintain your certification status.

Useful ideas for earning CPEs

ISACA offers opportunities to earn CPE through a variety of programs and events, including:

- **Webinars and Virtual Conferences**
  - Earn up to 40 free CPEs per year
  - Get details

- **Training Courses**
  - Earn up to 32 CPEs per course
  - See the Training Week schedule

- **Serving as an ISACA Volunteer**
  - Earn up to 20 free CPEs per year
  - More information

- **Conferences**
  - Earn up to 21 CPEs per event
  - Learn more

- **Journal Quizzes**
  - Earn one CPE for each of six journals per year
  - Quizzes can be found here

- **Lab Packages**
  - Earn performance-based CPEs
  - Find Labs

- **Online Training**
  - Earn up to 14 CPEs per course
  - Find course descriptions

- **Cybersecurity Nexus™ (CSX) Training Platform**
  - Find courses, labs and credentials
  - Find Labs

Additional activities that can earn you CPEs include:

- Teaching/lecturing/presenting
- Publication of articles, monographs and books
- Vendor sales/marketing presentations
- Exam question development and review
- Passing related professional examinations
- Working on ISACA Boards/Committees
- Contributions to IS audit and control profession
- And more

About ISACA

The ISACA community is guided by our Purpose and Promise, which defines the essence of who we are and what we do. Our Purpose is the reason we exist—to help business technology professionals and their enterprises around the world realize the positive potential of technology. Our Promise is how we, as an organization and as individuals, deliver on our Purpose: inspiring confidence that enables innovation through technology. Our work, and the work of the professional community we support, has never been more important.

ISACA has served our professional community for more than 50 years. The association was incorporated as the EDP Auditors Association in 1969 by a small group of individuals who recognized a need for a centralized source of information and guidance in the new field of electronic data processing audit. Today, ISACA serves 145,000 professionals in 180 countries, who span several roles in assurance, governance, risk and information security.
