ISACA Certifications
ISACA developed and administers industry-leading certifications:

- More than 12,300 CDTAs have been certified since its inception in 2010. CDTA enabled the certification to outline the core knowledge and competencies required to become a certified data protection and privacy professional.
- More than 6,800 CSX-Ps have been certified since 2019. CSX-P is an integrated product suite consisting of a model, adoption guidance, systems and tools, and an appraisal method—that provide a clear and proven path to achieving business goals, and advance data privacy.
- More than 18,000 CDPSEs have been certified since 2011. CDPSE is an integrated product suite consisting of the components– training and certification, a model, adoption guidance, systems and tools, and an appraisal method—that provides a clear and proven path to achieving business goals.

ISACA Certifications

ISACA continues to evolve and meet the needs of the IT industry with new and updated certifications. In 2019, ISACA released the Information Technology and Cybersecurity Practitioner Certification (IT CSP), a new certification that provides a pathway to entry-level cybersecurity roles.

ISACA also released the Cybersecurity Professional in Risk and Compliance (CS-X-PRM), a certification that focuses on professionals who are responsible for managing and controlling risk in an organization.

In 2020, ISACA introduced the Emerging Technology (ET) Certification, a new certification that is focused on professionals who are interested in emerging technologies such as blockchain, artificial intelligence, and machine learning.

In 2021, ISACA released the Cloud Protection and Response (CPR) Certification, a new certification that is focused on professionals who are interested in cloud security and compliance.

ISACA is continuously evaluating and updating its certifications to ensure that they remain relevant and valuable to professionals in the IT industry.

ISACA is a global professional association and learning organization that provides guidelines, education, training and community to professionals in governance, assurance, risk, privacy and quality. It has a presence in 188 countries, including 225 chapter organizations. Through its foundation (CertiTrain), ISACA supports IT education and career pathways for under-represented and under-rewarded populations.
