About ISACA

Now in its 50th year, **ISACA®** (isaca.org) is a global association helping individuals and enterprises achieve the positive potential of technology. Today's world is powered by information and technology, and ISACA equips professionals with the knowledge, credentials, education and community to advance their careers and transform their organizations.

ISACA leverages the expertise of its 460,000 engaged professionals in information and cybersecurity, governance, assurance, risk and innovation, as well as its enterprise performance subsidiary, [CMMK® Institute](https://cmmk.institute), to help advance innovation through technology. ISACA has a presence in 188 countries, including more than 220 chapters worldwide and offices in both the United States and China.

ISACA Facts and Figures

Established: 1969

Engaged Professionals: 460,000

Members: 140,000 in 188 countries

Members and Certification-Holders: 166,000+

ISACA Certifications

ISACA developed and administers industry-leading certifications:

Certified Information Systems Auditor® ([CISA®](https://isaca.org/cisa)). More than **146,000** CISAs have been certified since its inception in 1978.

Certified in Risk and Information Systems Control™ ([CRISC™](https://isaca.org/crisc)). More than **25,000** CRISCs have been certified since 2010.

Certified Information Security Manager® ([CISM®](https://isaca.org/cism)). More than **43,000** CISM have been certified since 2002.

Certified in the Governance of Enterprise IT® ([CGEIT®](https://isaca.org/cgeit)). More than **8,000** CGEITs have been certified since 2007.

CSX Practitioner Certification ([CSXP™](https://isaca.org/csxp)) is a performance-based certification allowing practitioners to validate their skills as a cybersecurity first-responder. The CSX Practitioner Certification (CSXP) exam was improved in 2018 to reflect current cybersecurity tasks and challenges and to support remote, flexible administration.

ISACA Products and Services

ISACA provides a wealth of tools and resources to business technology professionals and their enterprises:

ISACA partners with individuals and organizations to grow the world's situation-ready information and cybersecurity workforce. The **Cybersecurity Nexus (CSX)** portfolio, <https://cybersecurity.isaca.org>, provides training, performance-based assessments, research, networking, conferences and content. It includes the [CSX Training Platform](https://isaca.org/csx-training-platform);

[Cybersecurity Fundamentals certificate](#); [CSX Practitioner certification](#) and [The Nexus e-newsletter](#).

ISACA guides leaders on how to effectively govern today's digital systems and tomorrow's emerging technologies. [COBIT](#) has been the leading framework for the governance and management of enterprise IT for more than 20 years.

CMMI[®] Institute

In 2016, ISACA acquired [CMMI Institute](#) from Carnegie Mellon University. CMMI appraisals enable companies to measure their capability and maturity against a defined framework of best practices and decisively identify select areas in which to be more competitive. The CMMI [Cybermaturity Platform](#), a comprehensive enterprise cybersecurity capability and risk assessment platform that provides cybersecurity leaders and senior executives with the evidence and insights to improve cybersecurity resilience.
