SPEED NETWORKING
Sunday, 12 May | 5:30pm - 7:00pm

DON'T MISS THIS FUN, FAST-PACED WAY TO MAXIMIZE YOUR CONFERENCE EXPERIENCE.

Speed Networking takes the traditional values of face-to-face networking and combines it with the latest smart-matching software technology.

Speed Networking is a strategic, structured and rapid-fire networking event designed to help you share ideas, expand your network and build business relationships.

Bring your most vexing career challenge and get quick, candid feedback from others. Ask the question that's been bothering you for months. Share your greatest fears or top tip. Put your elevator pitch to the test or learn a better way to execute a mundane task. It's all here!

How does it work? It's easy! Once you have selected the session, you will receive an email* from Speed Networking Solutions LLC containing a link that will direct you to a customized landing page for the North America CACS Speed Networking participants. There, you will be asked to create a very brief profile for yourself so that you can be matched according to levels of experience and personal topic preferences. You will receive your personalized schedule when you arrive to the session.

To participate, you must add the session to your schedule by 5:30pm on Saturday, 11 May (24 hours prior to the session). If you've already registered for the conference, click on the "REGISTER NOW" button, log in, and you will be able to update your session selections to include Speed Networking. No additional participants will be accepted after that time.

During the session, you will talk to a new individual every eight (8) minutes (be sure to bring your business cards!), Our Professional facilitator will provide all timing cues and directions. All participants will be able to claim CPE credit for this session.

IMPORTANT: In order to ensure the success of this networking experience, attendance is MANDATORY for each person that sings-up for the session and completes their profile. If you would like to cancel or attend another session instead, you must do so by updating your session selection either online or in the mobile app no later than 24 hours prior to the session.

Earn up to 40 CPE credits when you add workshops and Speed Networking to your conference schedule.

*If you sign up prior to two months before the conference, you should expect your confirmation email 2 months prior to the conference.
