**PRESIDENT'S MESSAGE**

**Marguerite McCarthy**

Are career advancement and CPE requirements on your mind? ISACA® and the New York Metropolitan Chapter are here to help!

More than 75 CPE credits will be provided in conferences, training classes, and webinars by December 31, 2015 (see Education below). Additional CPE credits are available through webinars on the ISACA website.

Review classes for all four ISACA certification exams are provided by the Chapter to prepare you for the December 2015 exams. (See Certification section below.)

Two valuable exclusive Cybersecurity opportunities from ISACA:

- Trainer opportunity for ISACA Cybersecurity Fundamentals Workshop. Review the requirements and email President@isacany.org to request nomination to ISACA to become a Cybersecurity Fundamentals trainer for the Chapter. Your reward is CPE and experience; no monetary compensation is offered.
- CSX Practitioner exam and certification discounted to $375 until October 4, 2015. CSX Practitioner is the first of ISACA’s performance-based cybersecurity certifications, and is earned by passing an exam that tests your skills in a live virtual “cyber lab.” Exam score available immediately and official certification provided in 10 business days. General information and details.

Our Board of Directors and Committee Members (all volunteers) are working hard for you. We can always use more help. Visit our About Us and Volunteer webpages to learn how you can help us achieve the Chapter's mission, email Volunteer@isacany.org.

See you at the Membership Meeting on September 24th!

CyberSecurity Market Report from Cybersecurity Ventures

Cybersecurity Ventures is a research and market intelligence firm created in 1999 and focused on startup and emerging companies, and major players, in the Cybersecurity industry. The firm published their latest Cybersecurity Market report for Q3 2015, which covers the business of cybersecurity (market sizing and forecasts, emerging trends, employment, hot companies to watch and more). Here are the highlights from the report:

1- Market Sizing & Projections:
- According to a report from Markets and Markets, the cyber security market is estimated to grow to $170 billion (USD) by 2020, at a Compound Annual Growth Rate (CAGR) of 9.8 percent from 2015 to 2020.
- According to ASDReports in its "The Homeland Security Market Forecast 2014-2024", cybersecurity is estimated to be the fastest growing homeland security market as North America, Asia and Europe invest in cyber defenses.

2- Cybercrime:
- The British insurance company Lloyd's and some vendor forecasts estimate that cyber attacks cost businesses $400 billion to $500 billion + a year.
- Over the past 15 months, cost of ransomware has reached $18 million.
- According to Alcatel-Lucent’s Motive Security Labs, more than 16 million mobile devices worldwide have been infected by malware.

3- Cyber Insurance:
- Over the past two years, cyber insurance market has more than doubled from $1 billion to 2.5 billion.

4- Job Market:
- According to Michael Brown, CEO at Symantec, the cybersecurity workforce shortage is projected to reach 1.5 million (globally) by 2019.
- According to a Peninsula Press (a project of the Stanford University Journalism Program) analysis of numbers from the Bureau of Labor Statistics, more than 200,000 cybersecurity jobs in the U.S. are unfilled. The demand for information security professionals is expected to grow by 53 percent through 2018.
