PRESIDENT'S MESSAGE

[Alexander Josephite](#)

Greetings Fellow Chapter Members!

In today's environment everyone needs to be aware of cyber risks. All too often we get letters in the mail from merchants informing us that our credit card information may have been compromised, or check credit reports only to find someone else lowering our credit worthiness. This October is the 11th Annual [National Cyber Security Awareness Month](#) and I encourage each of you to brush up on security best practices then share your knowledge with family, friends, and colleagues.

Registration for the December 2014 ISACA® Certification Exams will close at the end of this month. ISACA® New York Metropolitan Chapter review classes are amongst the best in the world.

I look forward to seeing you at a future Chapter event.

Alexander Josephite, CISA, CIA, CFSA
ISACA New York Metropolitan Chapter President

California Passes Smartphone Kill Switch Law

According to an Information Week article, California legislators passed a law requiring that remote kill switches be built into smartphones sold after July 1, 2015. The intent of this law was to reduce the theft of smartphones. This law will be expected to have far-reaching consequences for smartphones designed and engineered for other states. You can read more about this topic by going to the link below:

PARTNER EVENTS

Don't Miss The New Video Series for Corporate Directors and Executives

ISACA® has partnered with the [National Association of Corporate Directors](#) (NACD) and KPMG to create a new video series:

The Intersection of Technology, Strategy and Risk. This series is designed to help corporate directors and others understand the relationship between technology and business, the benefits and risk of technology, and how to implement good enterprise risk management strategies. The series contains eight modules and has information and insights for corporate directors, CIOs and leading industry experts. It helps promote technical literacy at the board level and encourage better communication among the board, management and IT. View the videos on the [Intersection of Technology, Strategy and Risk](#) video page of the ISACA web site.
